Agent Orange - MK136

[Powered by S&S Cycle]

Born as a 2018 Electra Glide Police, this law enforcement machine has been transformed into an aggressive Road Glide BRL-style performance bagger. At its heart beats a monstrous S&S MK136 engine, delivering serious horsepower and torque. Built to turn heads and push limits, this machine combines race-inspired performance with serious attitude.

PAINT FSB Custom Riders, Heerhugowaard (NL)

Show bikes "Made by Zodiac"

Every year the Zodiac crew designs and builds themselves a unique custom machine using only products from the catalog. These cool looking bikes are built to ride and some are even available as kit bikes in the catalog.

We follow current trends in the bike building world and you will often see this reflected in our project-bikes. We set trends using innovative design concepts and we assist bike builders and those wishing to customise their bikes with the parts you want, no matter the style. Please take a look at a few of the bikes built by Zodiac and we hope you get inspired.
