TURNOUT 2-INTO-1

FEATURES & BENEFITS

- Designed specifically for the Touring enthusiast who prefers an extended rear fender and saddlebag kit without cut-outs for the stock exhaust, or for those who prefer a 'Shorty' style exhaust
- With Hot Rod styling, the end cap can be installed in different positions to suite your taste. The exhaust is designed to fit with the stock side covers in front of the saddle bags, so please check clearance if any aftermarket covers are installed
- Available in a variety of Chrome, Black and Pitch Black finishes on both the muffler and end caps

COMBAT SHORTY 2-INTO-1

FEATURES & BENEFITS

- Triple stepped headers 1 3/4" to 1 7/8" to 2" for increases of 15-18 HP and 13-15 foot lbs. of torque
- Racing exhausts have removable baffles with a deep, rich and throaty sound, optional quiet baffles available
- System equals 5 steps throughout for extreme power gains
- System reduces heat concentration by 30%
- Boasting full-coverage one-piece (220") blue-proof heatshields, available in chrome or ceramic black
- Customizable with a show chrome, sculpted black or pitch black tip
- Includes O2 sensor ports, plugs and all mounting hardware
- Engineered for maximum power
- Made in USA

TURNOUT 2-INTO-1

FEATURES & BENEFITS

- Designed specifically for the Touring enthusiast who prefers an extended rear fender and saddlebag kit without cut-outs for the stock exhaust, or for those who prefer a 'Shorty' style exhaust
- With Hot Rod styling, the end cap can be installed in different positions to suite your taste. The exhaust is designed to fit with the stock side covers in front of the saddle bags, so please check clearance if any aftermarket covers are installed
- Available in a variety of Chrome, Black and Pitch Black finishes on both the muffler and end caps

TWO BROTHERS RACING COMP-S 2-INTO-1 EXHAUST SYSTEMS

Two Brothers Racing 2-into-1 exhaust systems are designed to deliver maximum torque. They feature race-inspired stainless steel headers that shave pounds off the competition to ensure a long lasting, weather-resistant, amazing sounding exhaust. Exhausts come complete with heat shields. From the engine, the exhaust flows through our 1 3/4" stainless tubing which includes O2 bungs to accommodate both stock and 18mm sensors. From here the exhaust steps up to 1 7/8" before dumping into the spring retained collector for increased torque. The exhaust then emerges from the collector into a 4" diameter muffler to deliver an unparalleled sound upon exit. Competition-S exhausts feature removable end caps in aluminum or carbon fiber.

NEW

SUPERTRAPP 2-INTO-1 FAT SHOTS

Supertrapp's Fat Shot systems are a true fat exhaust with headers measuring 1 3/4" (44.5mm) flowing into a true 2 1/2" (63.5mm) collector, no cheap covers are used here, allowing an increase in performance across the board and a bottom-end torque increase. The end muffler is the well-known 4" external disc system with 2 1/2" inner core, allowing you to tune your exhaust the way you like it. Comes with adjustable discs, closed end cap and polished trim ring.

SUPERTRAPP MEGAPHONE SERIES 2-INTO-1 SYSTEMS

SuperTrapp exhaust systems pack more Horsepower with less weight. Provides both wave and outlet antireversionary tuning capabilities, that boost the power over the entire RPM range. The unique SuperTrapp pipe design features an adjustable 4" disc system at the end. Adding discs increases the size of the exhaust opening and reduces the back pressure. Lowering the number of discs used, reduces the exhaust gas outlet and decreases the noise. The ability to easily remove or add discs enables the rider to wave tune the system for maximum power from "Within legal noise standard" to the "Roaring Thunder" of a Drag Racer. These exhaust systems are available in Stainless Steel in either a brushed satin "racers look" or a highly polished finish. For Sportster models there is also a chrome plated mild steel version available. Exhausts bolt to the stock mounting points. SuperTrapp claims, if the carburetor is properly re-jetted, an increase of 10 Horsepower over the stock system. SuperTrapp exhaust systems are recommended by almost every high-performance engine builder and are used exclusively by the factory racing team. Available in complete sets or in header pipes only.

Fits 883, 1100 & 1200 Evolution Sportster models 1986 thru 2003, except models with stock forward controls

Complete set	Header pipes	
233006	237399	Brushed satin finish

Fits Dyna Glide models. Features low exit megaphone with built-in disc heat shield for saddlebag clearance. Fits Dyna Glide models from 1991 thru 2005

Complete set	Header pipes	
233172	237395	Brushed satin finish
233173	-	Polished finish

SUPERTRAPP 2-INTO-1 SUPERMEGS FOR SPORTSTER

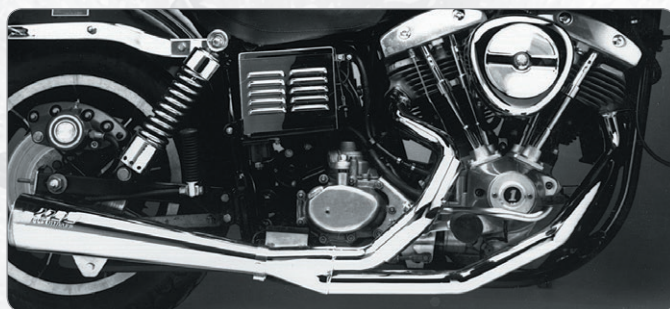

SuperTrapp claims these new 2-into-1 PowerPipes outperform all other 2-into-1 systems on the market. Tested in dyno shootouts and on the racetrack, SuperMegs have proven to be the best performing exhaust for these models. Features SuperTrapp's famous tuneable 4" disc system, Designer Style polished aluminum end-cap, three-piece triple chrome plated heat shields that provide full coverage for the headers and collector, as well add that beefy look to the system. Available in chrome or black painted finish, work with both forward and mid controls.

Fits 2004 thru 2013 XL Sportster

733096 Chrome
733098 Black

Fits all XL Sportster models 2014 to present

739892 Black

SUPERTRAPP EXHAUST SYSTEM FOR SHOVELHEAD

This 2-into-1 exhaust system fits all 1971 thru 1984 FX models with Shovelhead engines. The unique 4" disc system at the end of the exhaust gives you the opportunity to wave-tune your Shovelhead engine to get maximum Horsepower. Each system comes with a special mounting bracket and heat shield for the rear pipe. Can also be used on kick start equipped motors, if the late-style fold-out kick arm (ZPN290313) is used, or if the kick starter shaft is replaced by an extra long shaft (ZPN235845). Available in chrome or polished finish.

Complete set

233046 Chrome finish
232915 Polished finish

The adjustable disc system is accessible through the removable end caps, which are available in four different styles as replacement. Systems are made from highly polished steel tubing which then receives a brilliant chrome plated finish. Mounts to the stock factory mounts. For replacement parts see section: Accessories and replacement parts for internal disc series.

SUPERTRAPP'S 2-INTO-1 SUPERMEGS

SuperTrapp claims these new 2-into-1 SuperMeg power pipes outperform all other 2-into-1 systems on the market. The patent-pending bracket mounts the exhaust system to the transmission instead of the frame, allowing the exhaust system to "float" with the engine and transmission assembly.

Features Include:

- Triple-chrome plated or black coated mild steel
- Tuneable 4" disc system
- Designer style polished aluminium end-cap
- Chip-resistant gloss black powder coated brackets
- Unique three-piece triple chrome plated heat shields that provide full coverage for the headers and collector
- Also available for Softails with 230/250 Wide Tire Conversions

SUPERTRAPP IMPOSTERS

SuperTrapp 2 into 1 SuperMegs are one of the most popular pipes out there due to their unsurpassed 15% bolt-on performance gains. Due to popular demand, SuperTrapp now offers the Imposter. The Imposter allows riders to return their 2-into-1 equipped Bagger to a balanced, stock, True Dual look. The Imposter is a non-functioning, cosmetic, left-side pipe that mounts at the transmission bracket and to the stock muffler mount bracket. The Imposter does not connect to the 2-into-1 head pipe. The Imposter includes twenty, 4" discs, a closed end cap and a heat shield.

Fits 2009 to present FLH & FLT series Touring models
756407 Chrome

SUPERTRAPP XR STYLE 2-INTO-2 FOR SPORTSTER MODELS

Following the great styling of the 2 into 2 exhaust system found on the XR 750 factory racers, SuperTrapp designed this exhaust system for Evolution Sportsters. Although specifically designed for the 1993 dirt track series, it is totally streetable as well. Dyno testing on a stock 883 (rejetted and different ignition module) showed a peak power increase of eight Horsepower!!! Installation on modified Sportsters (Big-Bore, cams, carburetor, head work, etc.) and the use of up-to 28 discs will yield an even more dramatic power increase. This system is supplied with twelve discs per megaphone and comes complete with 2.5" diameter reverse-cone racing cores. As a note, even though we all know our Harley/SuperTrapp customers love the roaring thunder of their motorcycles, the use of 15 to 28 discs and/or the open racing style end cap will make this system louder than other SuperTrapp Megaphone-style systems.

233090 Fits 1986 thru 2003 Sportster models

733090 Fits 2004 thru 2013 Sportster models, including models with "02" sensors

The adjustable disc system is accessible through the removable end caps, which are available in four different styles as replacement. Systems are made from highly polished steel tubing which then receives a brilliant chrome plated finish. Mounts to the stock factory mounts. For replacement parts see section: Accessories and replacement parts for internal disc series.

SUPERTRAPP 2-INTO-2 TUNABLE MEGAPHONE SYSTEM FOR XR1200

With years of flat track experience and field testing SuperTrapp developed these 2-into-2 Megaphone Series for XR1200. These race inspired performance exhausts are manufactured from stainless steel, with brushed finish. These Megaphone Series incorporate the 4" tunable discs, 20-disc pack included for each muffler. Adding 4" discs allows the rider to increase horsepower, exhaust tone and flow. Removing discs allows the rider to reduce sound and increase low-end torque. This lightweight exhaust weighs less than half of the stock system. The new XR 1200 system by SuperTrapp sounds as great as it performs. Gain 10% horsepower and torque (with 16 discs installed) through the mid power range and a heavy rumbled thunder sound compliment the sporty and aggressive look of your XR1200.

733171 Brushed stainless steel

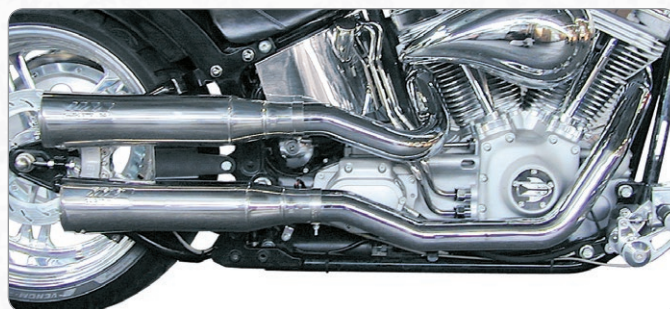

SUPERTRAPP 2-INTO-2 MEGAPHONE EXHAUST SYSTEM WITH LOW EXIT

The SuperTrapp 2-into-2 systems for Softail and Dyna, ZPN233182 (SuperTrapp 825-71330), 233183 (SuperTrapp 826-71331), 233184 (SuperTrapp 825-71338), 233185 (SuperTrapp 826-71339), 233190 (SuperTrapp 828-71331) are obsolete now, but we still can supply replacement headers for these.

Softail 1986-2006

	235979	235980	Polished
	235981	235982	Chrome

THE ORIGINAL MEAN MOTHER FAT SHOTS

Nothing beats the quality in style, performance and fitment of these Original Mean Mother Fat Shots. They feature massive 2" diameter chrome plated header pipes and high volume chrome plated mufflers. The high volume mufflers are redesigned for use on even the largest engines. For those that have a 100 C.I. plus engine these pipes are a must. Original Mean Mother Fat Shots fit Evolution and Twin Cam Big Twin style engines. Exhausts for 2007 to present models feature factory installed holes for the O2 sensors and include plugs for use on models that do not have O2 sensors.

733102 Fits 1984 thru 2011 Softail

THE ORIGINAL MEAN MOTHER FAT SHOTS FOR RIGHT SIDE DRIVE SOFTAIL MODELS

Now SuperTrapp has the answer, nothing beats the quality in style, performance and fitment of these for Right Side Drive designed Original Mean Mother Fat Shots. They feature massive header pipes with full covering chrome plated heat shields and high volume chrome plated steel mufflers. The high volume mufflers are redesigned for use on even the largest engines. For those that have a 100 C.I. plus engine these pipes are a must. Regular exhaust systems do not cope with the Right Side Drive transmission. There is just not enough offset in the header pipes. Zodiac offers these Fat Shots for use with Right Side Drive transmissions. The special design of the header pipes allows the use of up to 330 tire. Fits Evolution and Twin Cam Big Twin engines.

733033 Mean Mother Fat Shots RSD

SUPERTRAPP MEGASHOTS 2-INTO-1-INTO-2 SYSTEM

MegaShots feature SuperTrapp's well-known tunable 4" disc system and is designed specifically for 103 thru 140 Cubic Inch, high output, big bore motors. They feature massive 1.875"-2.00"-2.125" equally-stepped head pipes flowing through a 3" collector into dual 2.5" core FatShot-style, tunable, disc-based mufflers. The head pipes include both 18mm and 12mm oxygen sensor ports to accommodate both early and late style sensors. This system is available in a chrome or black ceramic finish with full coverage, 2.5" (64mm) heat shields. SuperTrapp MegaShots fit 1985 thru 2016 FLH/FLT series Touring models. Includes twenty-six 4" discs per muffler, closed end caps and all necessary mounting hardware. Additional discs and end caps are available and are listed under 'accessories and replacement parts for 4" Megaphone series'.

756415 Complete 2-into-1-into-2 system, black ceramic

756416 Complete 2-into-1-into-2 system, chrome

MEGAPHONE STYLE SLIP-ON MUFFLERS FOR FLH & FLT SERIES 1995-2016

These SuperTrapp mufflers feature the 3" adjustable disc system and are made to help make the miles for FLH/FLT riders go by a little quicker with added performance. You will know at first twist of the throttle that these mufflers are going to make passing that slow moving mini-van ahead totally painless. Available with Slash Cut or Straight Cut bodies.

233107 Straight Cut

233108 Slash Cut

SUPERTRAPP FAT SHOT SLIP-ON MUFFLERS FOR TOURING MODELS

SuperTrapp Fat Shot slip-on mufflers are 3.5" (9cm) diameter, fully chrome plated that flare out to a 4" (10cm) slash cut end. They feature straight-thru 2" (5.1cm) diameter, pillow-pack wrapped performance cores with SuperTrapp's tunable disc system. By adjusting the number of discs, these new FatShots slip-ons have the ability to be the quietest performance muffler out there with a richer stock level sound, but enhanced performance. It performs better than stock in a sound compliant configuration. If you want to kick it up a notch, installing the recommended 12 discs sets the stage for maximum power. In this configuration, FatShots slip-ons provide a 15% hp gain and a 12% torque gain over stock, proving your exhaust does not have to be loud to make power. These slip-ons truly demonstrate the performance and customization that a tunable exhaust has to offer. Adding 4" discs will increase the horsepower, exhaust tone and flow. Subtracting 4" discs will reduce the sound and increase low-end torque. FatShots slip-ons come complete with twenty-four 4" discs and all of the necessary hardware and mounting instructions, so you can get back on the road in no time. Works great on both stock and Big Bore engines and bolt straight on to your stock headers. Sold in pairs.

236988 Chrome, fits all 1995 thru 2016 FLH & FLT series models with Evolution or Twin Cam motor

Except where mentioned differently, all exhaust systems, mufflers, drag-pipes, etc. shown in our catalog, are for closed course competition or in show competition only. They will not meet legal noise and emission standards.

The adjustable disc system is accessible through the removable end caps, which are available in four different styles as replacement. Systems are made from highly polished steel tubing which then receives a brilliant chrome plated finish. Mounts to the stock factory mounts. For replacement parts see section: Accessories and replacement parts for internal disc series.

SUPERTRAPP STOUT SLIP-ON MUFFLERS

SuperTrapp Stouts are 4" (10cm) diameter slip-on mufflers and quench the thirst of riders longing for beautifully crafted chrome or black-bodied mufflers with a pleasant tone and unsurpassed performance gains. These non-tunable, massive 4" Slip-Ons allow riders to make a bold statement with their newly developed core. The streamlined, internal tapered, billet aluminum end cap with recessed fasteners comes pre-installed. The newly shaped inlets flow better into the OEM head pipe as well as SuperTrapp True Dual Head Pipes. The oval cut outs are a sign of the true craftsmanship that went into the design of these pipes. SuperTrapp Stout Slip-Ons provide a heavy, broad spread power curve right from idle with a 9.3 (16%) BHP and 10.5 (14%) ft.lbs torque gain over stock (measured on a stock 2010 FLH). Static tests according to the SAE J2828 standard these mufflers produce 95.6 dB(a) at 2,000 rpm, or 2.4 dB(a) over the stock mufflers on US domestic Touring models. SuperTrapp Stouts are sold in pairs for Touring models and single muffler for Street models.

Fits 2015 to present XG 500 & XG 750 Street

739895 Black with black end cap

SUPERTRAPP SLIP ON MUFFLERS FOR INDIAN SCOUT, SCOUT SIXTY & SCOUT BOBBER

Bolt-on performance with a great sound. These mufflers have a 3" (7.5cm) diameter with SuperTrapps Adjustable Disc System that allows you to tune your bike, as well as the sound you get. Mufflers are sold in pairs and come complete with the required mounting hardware. Refer for options to "ACCESSORIES AND REPLACEMENT PARTS FOR 3" INTERNAL DISC SERIES.

739842 SuperTrapp slip-on mufflers for 2015 to present

UNIVERSAL REPLACEMENT SILENCERS

Stainless Steel universal replacement silencers. Fits 1 3/4" and 2" front pipes. Features the exclusive SuperTrapp adjustable disc silencer. Comes complete with all necessary hardware. Overall length is 18".

Note: For replacement parts see 4" megaphone replacement section.

233030 1 3/4" Silencer, satin

233033 2" Silencer, polished

SUPERTRAPP MEGAPHONE FOR XG STREET

Stainless steel slip-on muffler for 2014 to present XG500 & XG750 Street and XG750 Street Rod. Features the Supertrapp 4" tunable disc system which allows you to adjust the exhaust sound the way you like it. Exhaust comes with 15 discs and end cap, replacement collector heat shield and all necessary hardware.

757142 Supertrapp stainless steel slip-on muffler for Harley-Davidson Street series

NEW

UNIVERSAL SHORT ALUMINUM RACE MUFFLER

Repackable 4" disc aluminum silencers. This is the same muffler that is used on SuperTrapp Super Street series in the USA. You can use this muffler for the making of any high performance exhaust system. Available with 1 3/4" or 2" connector. Body is 12" long.

233042 Race muffler 1 3/4"

233043 Race muffler 2"

SUPER LIGHT STAINLESS STEEL RACE MUFFLER

Extremely light and corrosion free, Stainless Steel is the ultimate material for exhaust system construction. Hand buffed to a satin finish. These completely tunable mufflers are usable for many custom and race applications, and now have a Stainless Steel core as well. Available in three sizes. Overall length is 16 3/4".

234383 1 3/4" Connector

234389 2" Connector

234399 2 1/4" Connector

SUPERTRAPP BLACK UNIVERSAL RACE MUFFLERS

These universal SuperTrapp mufflers have a hi-temp black coated steel body with a corrosion resistant Stainless Steel core. They utilize SuperTrapp's patented 4" Tunable Disc Technology, a 3 1/2" (8.9cm) body diameter which tapers out to a 4" (10.2cm) opening and come with 12 pcs. 4" discs. Muffler body is 18 1/2" (47cm) long and available with an ID of 1 3/4" (44.5mm), 2" (50.8mm) or 2 1/4" (57.2mm). Mufflers are sold each and the center pull clamp to attach the muffler to the frame, as well as the muffler-to-header clamps are sold separately.

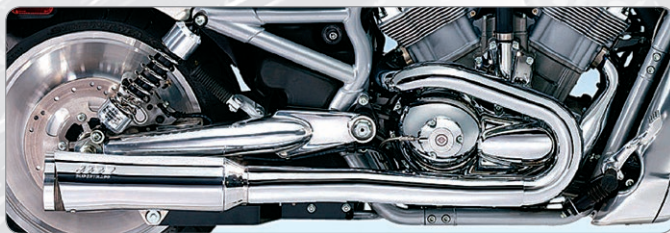

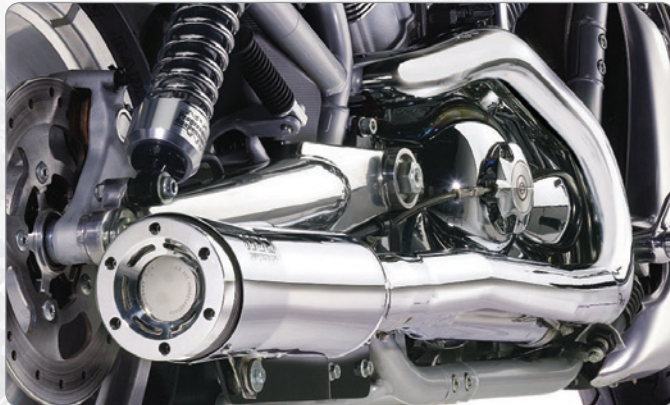

756400 Fits 1 3/4" (44.5mm) headers
756401 Fits 2" (50.8mm) headers
756402 Fits 2 1/4" (57.2mm) headers

Muffler to header clamps

233193 Fits 1 3/4" (41 to 46mm) mufflers

233195 Fits 2 1/4" (55 to 59mm) mufflers

Muffler body clamps

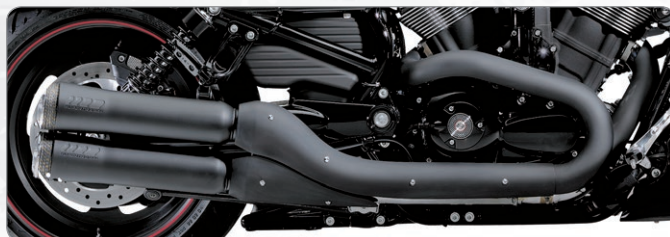

233174 Clamp 3 1/2"

SUPERTRAPP "V-5" 2-INTO-1 SLIP-ON

The "V-5" is a chrome plated SuperTrapp 2-into-1 slip-on muffler that provides the classic SuperTrapp performance to the V-Rod. The complete kit weighs in at 12 lbs., which is a whopping 21 lbs. lighter than the stock system. It comes with a massive triple chrome plated 5" external disc stainless muffler, complete with billet aluminum TrappCap and a collector pipe with heat shield to connect the muffler to your stock headers. The system adds a distinctive, unique look to the V-Rod. Collector pipe and heatshield are triple chrome plated. The muffler has a Stainless Steel core construction and gives a deep, throaty sound, making the bike come alive. SuperTrapp claims a significant HP gain over stock.

733007 Fits 2002 thru 2006 VRSCA, VRSCB and VRSCSE models
733032 Discpack for 5" exhaust, pack of 6

SUPERTRAPP SLIP-ON FAT SHOTS FOR V-ROD

These SuperTrapp Fat Shot slip-on muffler kits bolt straight on to the stock headers. Features SuperTrapp's adjustable disc system to tune the note and performance of your exhaust exactly to your wishes. These mufflers install in minutes and come complete with all required hardware. Available in chrome and black for 2006-2017 VRSCD Night Rod and VRSCR Street Rod.

733071 Black
733072 Chrome

ACCESSORIES AND REPLACEMENT PARTS FOR 4" MEGAPHONE SERIES

233026 [A] Standard end cap
233024 [B] Open end cap (racing use only)
233025 [C] Aluminum end cap
233027 [D] Exhaust shield/deflector, keeps exhaust soot off the caliper/swingarm
233028 [E] Diffuser discs 4" (pack of 6)
233029 Diffuser discs 4" (pack of 12)
233037 [F] Screw kit (pack of 6) stock replacement, 10-24x2.0"
233036 Screw kit (pack of 6) holds up to 34 discs but not fewer than 15, 10-24x3.0"

"RUMBLER" ADJUSTABLE END CAPS FOR 4" SUPERTRAPP MUFFLERS

Sometimes you want the old fashioned "Rumble Sound" in your Harley and sometimes you don't. These adjustable end caps make this possible. By loosening the lock screw on the end cap you can open up your exhaust with the small handle, allowing a straight thru flow. Cap is CNC machined from billet aluminum and has a high luster polished finish. Comes complete with Allen key for the lock screw. Fit all SuperTrapp 4" external disc exhausts. Sold each.

731434 Adjustable end cap

"TRAPP CAPS" FOR SUPERTRAPP 4" EXTERNAL DISC SYSTEMS

SuperTrapp designed 5 great styled end caps for the 4" external disc mufflers. These end caps give you the opportunity to personalize the appearance of exhaust systems. Made from heavy metal with a perfect finish. Available in your choice of "Star", "Grate", "Cone", "Dotted wheel" or "Slotted Wheel" style. Caps are sold each.

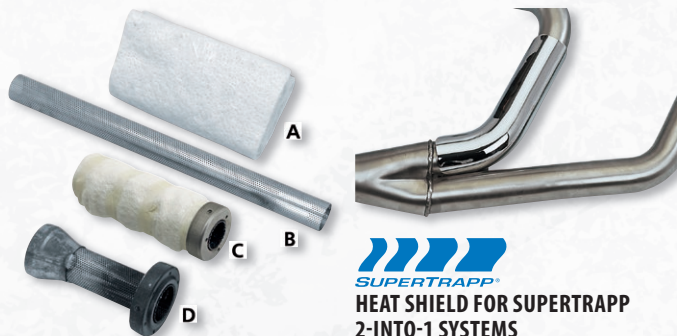

721874 [A] Star Style end cap
721875 [B] Grate Style end cap
721876 [C] Cone Style end cap
721878 [D] Slotted Wheel Style end cap

⚡ Except where mentioned differently, all exhaust systems, mufflers, drag-pipes, etc. shown in our catalog, are for closed course competition or in show competition only. They will not meet legal noise and emission standards.

⚡ The adjustable disc system is accessible through the removable end caps, which are available in four different styles as replacement. Systems are made from highly polished steel tubing which then receives a brilliant chrome plated finish. Mounts to the stock factory mounts. For replacement parts see section: Accessories and replacement parts for internal disc series.

REPLACEMENT BAFFLES

Re-pack kits and replacement baffles for the SuperTrapp internal disc series and the external 2-into-1 series (except "Low Noise" mufflers & EEC systems).

233039 [A] Glass-fiber repack for all systems

234378 [B] Replacement baffle for 3" internal disc muffler 1.75"-20.70" long

233063 [C] Replacement baffle with installed glass fiber pack for 3" internal disc muffler 1.75"-10" long

233540 [D] Replacement baffle for external disc muffler (except "Low Noise" mufflers)

HEAT SHIELD FOR SUPERTRAPP 2-INTO-1 SYSTEMS

These heat shields were developed to cover the rear exhaust pipe of all 2 in 1 SuperTrapp exhaust systems. Will give extended coverage for boot and pants protection. Includes two hose clamps for easy mounting. Chrome plated finish (will not fit 2-into-1 Sportster systems).

233047 Supertrapp exhaust heat shield 2-in-1

SUPERTRAPP TRUE DUAL CROSS-OVER EXHAUST SYSTEM FOR TOURING

SuperTrapp True Dual cross-over exhaust systems are designed for FLH/FLT series Touring to increase torque and horsepower and are great in combination with SuperTrapp's SE series slip-on mufflers but can also be used with stock, OEM Accessory or any other brand slip-on mufflers designed for these models. Headers feature heat shields and O2 sensor bungs and come complete with plugs that are to be used on models that originally do not use O2 sensors. Headers, mufflers and muffler end caps must be ordered separately. End caps are not included and must be ordered separately.

733174 True Dual cross over headers for 1985-2008 Touring

733175 True Dual cross over headers for 2009 Touring

739878 True Dual cross over headers for 2010 thru 2016

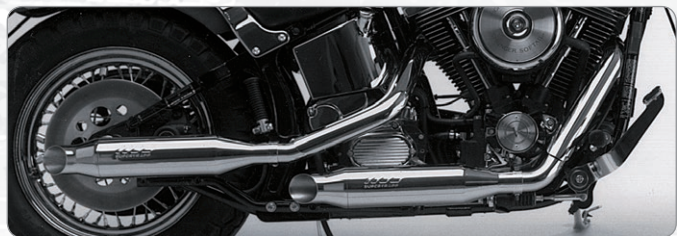

733047 Muffler set, fits FLH and FLT series 1995-2009

733128 Muffler set, fits FLH and FLT series 2010 thru 2016

SUPERTRAPP 2-INTO-1 FISHTAIL SYSTEMS

236989 2-into-1 system, fits all Softail 1986-2017, has Fish Tail end cap

STAGGERED DUAL SYSTEMS FOR SOFTAIL

233015 Staggered Dual, fits all 5 Speed Softail models 1986 thru 2002. FLSTF Fat Boy and FLSTN Nostalgia require the separate purchase of bracket ZPN061330. Has Slash-Cut end caps.

CROSSOVER CONVERSION FOR ROAD GLIDE & STREET GLIDE

SuperTrapp's Crossover Conversion turns the OEM 2-into-1 system as used on US Domestic 2010 FLHX and FLTRX models into a 2-into-1-into-2. This gives you back the stock dual exhaust look and sound that riders are looking for. It connects to the stock head pipe, which keeps your OEM catalytic converter in place and then crosses under the frame like the stock 2-into-1-into-2 systems known for the other Touring models. The conversion is designed specifically to work with all of the SuperTrapp and Kerker slip-ons for FLH and FLT models. The Conversion kit comes complete with required hardware and heat shields. Fits 2010 US Domestic FLHX Road Glide and FLTRX Street Glide. Does not fit International export models (frame number starting with SHD).

739884 SuperTrapp crossover conversion

Except where mentioned differently, all exhaust systems, mufflers, drag-pipes, etc. shown in our catalog, are for closed course competition or in show competition only. They will not meet legal noise and emission standards.

The adjustable disc system is accessible through the removable end caps, which are available in four different styles as replacement. Systems are made from highly polished steel tubing which then receives a brilliant chrome plated finish. Mounts to the stock factory mounts. For replacement parts see section: Accessories and replacement parts for internal disc series.

SUPERTRAPP FISHTAIL MUFFLER SET

Super looking Performance mufflers for the Heritage Softail Springer models from 1997 thru 2006 with the crossover exhaust system. The mufflers use the 3" internal discs system and have an extended body with mini Fish Tail end caps. They are beautifully Show chromed and are sold as a set. All necessary hardware is included.

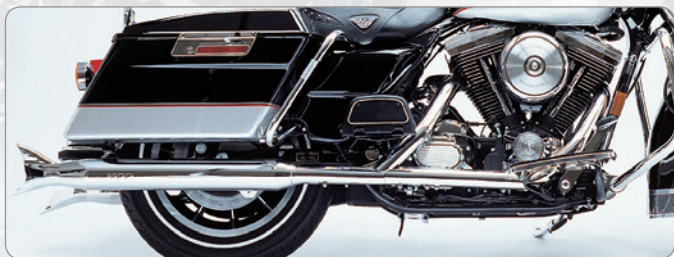

233140 Fishtail mufflers for FLSTS models

SUPERTRAPP SLIP-ON MUFFLERS

SuperTrapp staggered dual slip-on mufflers are very cost effective versus a full system and give your bike a significant increase in Horsepower. These chrome plated, 3 1/2" (8.9cm) outer diameter, mufflers in a tapered design with SuperTrapp's 3" Internal Disc design are tunable for sound and performance. Very easy to fit as these mufflers slip straight on the stock headers of all 1999-2017 Dyna Twin Cam, except FXDF Fab Bob, 2010-2017 FXDWG Dyna Wide Glide and 2012-2017 FLD Switchback.

232962 Staggered Duals for Dyna Twin Cam

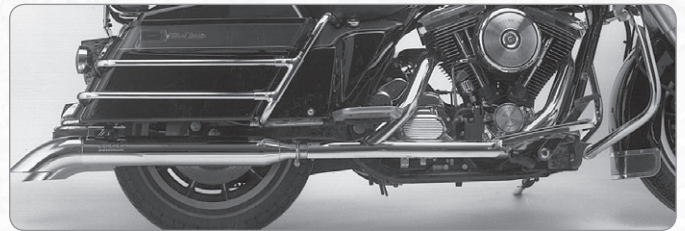

SLIP-ON MUFFLERS FOR TOURING

Designed with Original Equipment Styling and modern SuperTrapp technology, SuperTrapp promises these slip-on mufflers will give an increase of 6 to 9 Horsepower over the stock mufflers. The exclusive SuperTrapp adjustable disc system is contained within the 3 1/2" muffler body and is accessible through the removable end caps. Optional caps are available. Each muffler comes with 12 discs installed (can be increased to 24 discs) and can be installed to original mounting brackets.

Fits 1986-1994 Touring models

233102 Muffler set with Tapered end cap

Fits 1995 thru 2016 models

233158 Muffler set with Fish Tail end cap

233159 Muffler set with Turn-Down end cap

233160 Muffler set with Tapered end cap

SUPERTRAPP SUPER ELITE SLIP-ON MUFFLERS

You can now have exactly the same mufflers as SuperTrapp supplied to "The Factory" for many years. These Super Elite slip-on mufflers are the most popular design on the market today. They feature race-proven mechanical baffles for increased torque and horsepower. To eliminate muffler body bluing SuperTrapp equipped these mufflers with internal baffle heat shields. Mufflers are expertly finished and chrome plated. Mufflers for FLH and FLT series models come with a SuperTrapp logo on either left or right side. You can use these on both sides of your bike, so it is up to you if you want to install them with the logo's visible or not. Also available for FLSTS Springer Softail models 1997 thru 2003 and FLSTC Softail models 2005 but these can only be installed with the SuperTrapp logo in sight. Elite Series mufflers are sold in pairs and are very easy to fit as they make use of the OEM brackets and headers. Super Elite series end caps are not included and must be ordered separately.

Elite Series slip-on muffler sets

733047 Muffler set, fits FLH and FLT series 1995-2009

733128 Muffler set, fits FLH and FLT series 2010 thru 2016

733048 Muffler set, fits FLSTS Springer Softail models 1997 thru 2007 and FLSTS Softail models 1997 thru 2007

SUPERTRAPP MEAN MOTHER SLIP-ONS FOR TOURING MODELS

Give your 2009 thru 2016 model a drag pipe sound at a slip-on price. Just add these Mean Mother slip-ons to the ends of your stock head pipes for the same loud and throaty sound as the original Mean Mothers drag pipes found elsewhere in this catalog. Slip-ons are 2 3/4" (7cm) diameter chrome heat shields over 2 1/4" (5.7cm) pipes. Removable, louvered core and standard end caps are included. Two other style end caps

PERFORMANCE MACHINE "ELITE" EXHAUST TIPS

Performance Machine's Elite exhaust tips are made from billet aluminum, turned into works of art. Four cutting-edge designs including the Clean, Tech 10, Slash and Sweeper will slip-on to Screamin' Eagle, Supertrapp and Kerker pipes in 3 1/2" (89mm) or 4" (102mm) diameter. PM tips will also fit Bassani short and long Megaphone applications. Each tip features machined cuts and grooves, giving each round depth and dimension both inside and out. No matter what angle you find yourself admiring these tips, they're definitely sexy. Tips are embellished with the Performance Machine logo and available in chrome and black with a Contrast Cut Finish. Sold each.

SUPERTRAPP'S MEAN MOTHER DRAG PIPES

It's no drag, it's a Mean Mother. You'll get Hot Looks and Super Sounds with Supertrapp's new Mean Mother Drag Pipes, and even hotter with the 12" longer Long Mean Mothers. And for those who want a Hot Classic look there are even Staggered Mean Mothers. The 2 1/2" stacked pipe with an offset look is killer. The pipe itself is 1 3/4", stepped to 2 1/4" in diameter to maintain high exhaust velocity. Hand polished with CNC mandrel bends and a straight through design, mixed with double wall tubing, allow Mean Mother Drag Pipes to provide enhanced performance and no bluing. These pipes feature unique diagonal exits but there are three optional chrome end caps that can be purchased in addition to the stock end cap. All Mean Mothers are supplied with 2" louvered baffles installed to take the noise level down to an acceptable level.

Accessories

733017 Chrome Standard replacement end cap, sold each

733019 Chrome Slash Cut end cap, sold each

733018 Chrome infinitely adjustable Turndown/out end cap, sold each

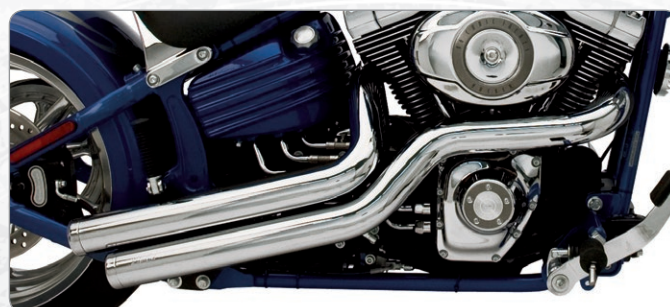

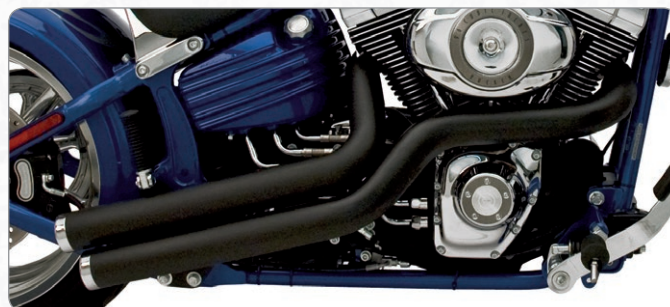

232948 Short (11 3/4" long) 2" diameter louvered replacement baffles for Short and Staggered Mean Mothers, pair

SUPERTRAPP 2-INTO-2 FAT DUALS 1984-2011 SOFTAIL

SuperTrapp's Fat Dual 2-into-2 systems feature 1.75" primary head pipes, completely covered by full length 2.5" heat shields. The staggered fitted cylindrical muffler bodies are 3.5" in diameter. Grooved end caps are included with these Fat Duals 2-into-2 systems. The end caps are removable and can be replaced by all SE Series and Kerker Slip-On end caps. This means that riders have the luxury to choose from 11 different styles of end cap. Fat Duals weigh 10% less than stock exhaust. Headers are equipped with O2 sensor ports and come with plugs to close them when fitted on models without O2 sensors. Fit all 1984-2011 Softail models, except FXCW Rocker and FXCWC Rocker Custom.

733166 Chrome Fat Duals

SUPERTRAPP 2-INTO-2 MEAN MOTHERS SIDE SWIPES FOR ROCKER

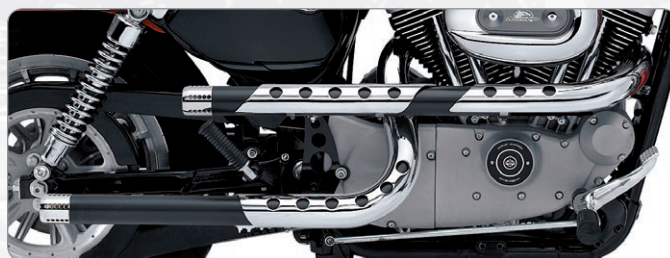

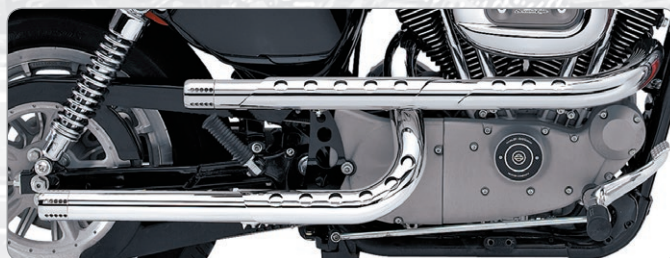

Mean Mothers Side Swipes give any Rocker a tough, aggressive and beefy look. The downward angled exhausts accentuate the lines of the 2008 thru 2011 Rocker. Complete exhaust system is constructed from stainless steel, the ultimate in durability and strength at high temperatures and corrosion resistance. 1.75" head pipes flow into the 2.25" expansion chamber with a removable baffle. A one-piece heat shield protects the rider and enables easy installation. The Side Swipes are available in a black ceramic and show quality chrome finish. Both versions come complete with standard chrome end caps. Contrasting with the black ceramic pipes, the end caps really make the chrome on the bike jump out. Optional available are chrome Slash Cut end caps and Turndown/Out end caps which are 90 degrees rotatable. The Side Swipes are extremely lighter than stock exhausts and provide mid to top end horsepower improvement. Both versions feature O2 sensor ports and two plugs.

Note: Designed for Rocker models but can also be used on most Softail models and Custom Builts.

Note: Also suitable for 2013 thru 2017 FXSB Breakout when installed with ZPN701677 sensor adaptor kit.

733164 Black ceramic finish

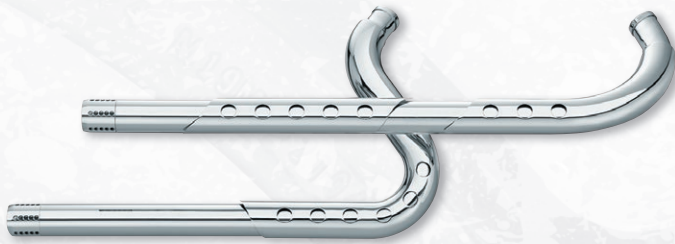

733165 Chrome finish

PAUL YAFFE'S "X-PIPES" DRAG PIPES BY SUPERTRAPP FOR SPORTSTER

SuperTrapp produces these Paul Yaffe designed straight thru drag pipes in the best tradition of "Loud Pipes Save Lives". Pipes are 2" in diameter and come with three chrome plated designer heat shields and louvered end caps. Available in chrome or black for 2004 thru 2013 Sportster models. A set of baffles can be ordered separately.

- 733161** Chrome X-pipes for 2004 thru 2013 models
733162 Black X-pipes for 2004 thru 2013 models
733053 Optional baffles (pair)

PAUL YAFFE'S "X-PIPES" DRAG PIPES FOR DYNA

After the introduction of SuperTrapp's Road Legend series X-pipes for Softail, Paul Yaffe designed X-pipes for Dyna models too. Pipes are 2" in diameter, and are available in your choice of chrome plated or black coated. Both chrome and black exhausts come with three chrome plated designer heat shields and louvered end caps to give those real killer looks. Available for 1991 thru 1998 Evolution powered Dyna's, as well as 1999 to present Twin Cam powered Dyna models. A set of baffles can be ordered separately. Fits 2012 and later models when installed with ZPN701677 or ZPN701678 retrofit kit.

Fits 1991 thru 1998 Evolution Dyna's and 1999 thru 2005 Twin Cam Dyna

KERKER RACER'S LOOK EXHAUST SYSTEM FOR SPORTSTERS

Styled after the exhaust systems that are used on the 883 road racers, this exhaust system will give your Sportster that racy appearance. This system is not only styled after the race systems, it will also increase both Horsepower and torque. This all Stainless Steel system features computer designed header pipes. Fits all Evolution Sportster models from 1986 thru 2003, except those with stock forward controls.

722061 Complete system with Carbon Fiber muffler

PAUL YAFFE'S "PHANTOM II" PIPES BY SUPERTRAPP

The Road Legends Phantom Pipe II is a curvy 2: 1. It is an updated and baffled version of the original Phantom Pipe, providing a much more neighborhood friendly sound. Features include a 2" removable and rebuildable core that's tough sounding and even better performing. The 4-piece stylized chrome-plated heat shields come pre-installed. The Turned-Up Claw End Tip features a domino dot-engraved decorative billet end cap that makes a bold statement without the drag pipe sound arrival. The Phantom Pipe II features a 2" primary pipe and a 3.5" diameter collector. Designed by master bike builder Paul Yaffe.

Note: Phantom II exhausts do not fit with the stock air cleaner on 2008 and later Dyna models and 2016 to present Softail, these must be converted to an aftermarket air cleaner.

733152 Fits 2014 to present Sportster models, except XL 1200T

756421 Fits forward control equipped 2006 thru 2011 Dyna models including FXDWG and FXDF, as well as 2007 thru 2011 Softails. Does not fit FXCW and FXCWC Rocker

756422 Fits 2012 thru 2017 Softails and forward control equipped 2012 thru 2017 Dyna models including FLD, FXDWG and FXDF

KERKER 2-INTO-1 SUPERMEGS FOR SPORTSTER

This expertly crafted Kerker 2: 1 system is available in black or chrome and features a full flow mechanical core for a deep throaty sound and excellent top end performance. Numerous OEM's choose these for their big engine bikes. Dressed in heat shields, this exhaust will keep its cool for years of riding enjoyment. Power curve shifts to the top end, providing high RPM power. A 2.5" non-baffle, mechanical core provides a deep, bottomless rumble. The core and packing are rebuildable for minimum maintenance. A uniquely designed mounting bracket makes this system a breeze to install, work with both forward and mid controls.

Fits all XL Sportster models 2004 thru 2013

PAUL YAFFE'S PHANTOM PIPE FOR TOURING MODELS

Made by SuperTrapp and designed by Paul Yaffe, this is a stylish black ceramic exhaust system your Bagger has been begging for. Has 4-piece stylized chrome heat shields and a decorative billet end tip engraved with domino dots. Available for 1985 thru 2016 FLH and FLT Touring series models. Available in a full open "show only" version that has no O2 sensor bungs, as well as baffled versions for 1985 thru 2009 and 2010 to present models.

739885 Fits 1985 thru 2009 models, baffled

739886 Fits 2010 thru 2016 models, baffled

KERKER 2-INTO-1 EXHAUST SYSTEMS FOR SOFTAIL

Kerker exhausts are completely re-buildable and are finished in brilliant triple-nickel chrome plating. This classical looking SE Series 2-into-1 system for Softail comes without muffler end cap. This allows you to change the appearance of this exhaust to match with the styling of your bike. For example the classic FishTail end cap for that vintage look, or the tapered end cap for a stock appearance. The Turndown caps can be positioned in one of three positions, depending on your bike's equipment. And that are just three of the 17 available end caps. SE series 4" diameter end caps are sold each and listed separately.

739869 2-into-1 System fits Softail models 1990 thru 2006

733147 2-into-1 System fits Softail models 2007-2011

KERKER 2-INTO-1 SUPERMEGS FOR SOFTAIL AND DYNA

Kerker developed these 2-into-1 system for improved performance on the 80 CI Evolution as well as 88 and 96 CI Twin Cam motors. The patent-pending bracket mounts the exhaust system to the transmission instead of the frame, allowing the exhaust system to "float" with the engine and transmission assembly. This triple chrome plated or black ceramic coated system comes with a Slash-Cut muffler with internal cone for enhanced appearance, gloss black powder coated mounting bracket and three-piece triple chrome plated heat shields that provide full coverage of headers and collector. The Kerker 2-into-1 exhaust is available for all 1984 thru 1999 Evolution Softails, all 2000-2017 Twin Cam Softails, all 1991 thru 1998 Evolution Dyna's and all 1999 thru 2017 Twin Cam Dyna's.

Fits 1986 thru 1999 Evolution Softails and 2000 thru 2006 Twin Cam Softails with up-to 230 series rear tire

KERKER'S SLIP-ON REPLACEMENT MUFFLERS

Kerker claims that, due to use of the Kerker designed K3 baffle core, these High Volume Slip-On replacement mufflers will add extra Horsepower to your motorcycle. They are 3 1/2" (89mm) in diameter and sold without end caps, giving you a choice of 17 different styles of SE series end caps to top them off and match the styling of your bike. When, at a later time you want to change to another style end cap, you simply buy another bolt-on end cap. Mufflers are available for 1985 thru 2016 models and FLSTC Heritage and FLSTSC Heritage Springer 1997 thru 2007. SE Series mufflers bolt to the stock mountings in minutes and are sold in sets of left and right. SE series end caps are sold each and listed separately.

739860 Fits all FLH and FLT series Touring models 1985 thru 1994

739863 Fits all FLH and FLT series Touring models 1995 thru 2009

739864 Fits all FLH and FLT series Touring models 2010 thru 2016

KERKER SLIP-ON MUFFLERS FOR TOURING

Deep sounding slash-cut mufflers with rebuildable fiberglass wrapped cores that slip straight onto the stock headers. Sold in pairs.

739897 Fits all 1995 thru 2016 FLH and FLT series models

757122 Fits all 2017 to present FLH and FLT series models

KERKER STOUTS FOR TOURING MODELS

Kerker Stouts are chrome plated or black coated 4" (10cm) diameter slip-on mufflers, designed to fit the stock head pipes. These slip-ons feature a traditional core, which targets a higher spread of power providing more mid range RPM up through the red line. They come with factory installed, streamlined and internal tapered billet aluminum end caps that have recessed fasteners. The oval cut outs are a sign of the true craftsmanship that went into the design of these pipes. Kerker Stout 4" slip-ons, like their name suggests, are not a wimpy pipe. Hand-crafted for your riding pleasure, they provide a bold, strong power curve from mid range on up with a 9.6 (17%) BHP and 9 (12%) ft.lb torque gain over stock (measured on a 2010 FLH). Kerker Stouts are 97dB(a) (per SAE-J2825) or 5dB(a) over the stock mufflers on US Domestic models with that classic Kerker, deep, heavy rumble. Sold in pairs.

KERKER SLIP-ON MUFFLERS FOR STREET ROD & NIGHT ROD

Kerker's slip-on mufflers are easy to fit as they just slip on to the stock headers. They are 13 pounds lighter than stock, feature a totally rebuildable core and packing, as well as expertly finished brushed aluminum canisters. The high-flowing 2" diameter baffles unlash the power of your V-Rod and give a deep signature exhaust tone. Fits all Street Rod and Night Rod models. Sold in sets of 2 and come complete with all necessary mounting hardware.

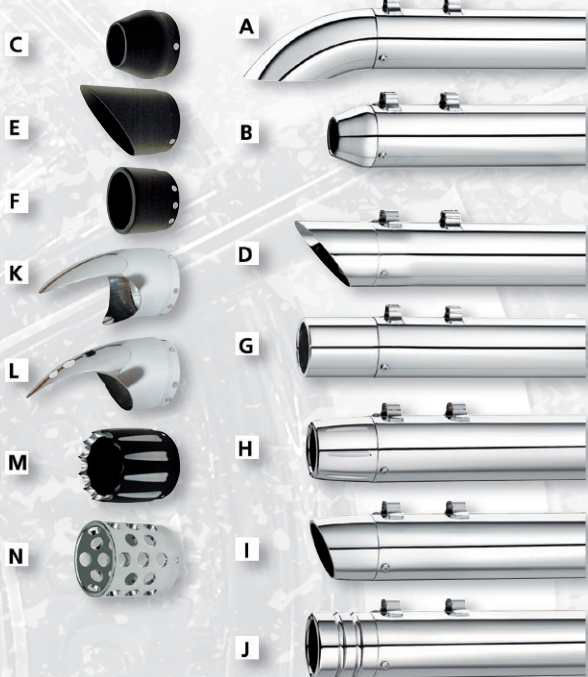

733085 Kerker slip-on mufflers for Street Rod and Night Rod

KERKER DOUBLE ESPRESSO PIPES FOR TOURING MODELS

These Kerker "Double Espresso" slip-on mufflers come with the Java Jugs end caps and improved baffle core design that improves performance without waking up the neighborhood. Installation is easy and done in a glance. Sold in pairs. Fits all FLH and FLT 1995-2016.

733037 Kerker "Double Espresso" slip-ons FLH & FLT models

KERKER SE & SUPERTRAPP ELITE SERIES END CAPS

A wide range of end caps that fit SuperTrapp Elite series 3 1/2" mufflers, Kerker SE series 3 1/2" mufflers, Screamin' Eagle Street Performance 3 1/2" mufflers and most other aftermarket 3 1/2" (89mm) outer diameter mufflers. Sold each in chrome or black ceramic coated.

PERFORMANCE MACHINE "ELITE" EXHAUST TIPS

Performance Machine's Elite exhaust tips are made from billet aluminum, turned into works of art. Four cutting-edge designs including the Clean, Tech 10, Slash and Sweeper will slip-on to Screamin' Eagle, Supertrapp and Kerker pipes in 3 1/2" (89mm) or 4" (102mm) diameter. PM tips will also fit Bassani short and long Megaphone applications. Each tip features machined cuts and grooves, giving each round depth and dimension both inside and out. No matter what angle you find yourself admiring these tips, they're definitely sexy. Tips are embellished with the Performance Machine logo and available in chrome and black with a Contrast Cut Finish. Sold each.

781811 Black ceramic coated, set of two mufflers

MAD STAINLESS STEEL EXHAUST PIPES

Hand crafted in the Netherlands from stainless steel tubing in precision build moulds these custom exhaust pipes are more a work of art than "just another exhaust". They come in raw stainless steel with welds as you see them on race bikes. Add your own baffles or mufflers, or use them as they come for the track or show. The 2-into-2 and 2-into-1-into 2 systems have a 1 3/4" (44.5mm) muffler connection, 2-into-1 have a 2" (50.8mm) muffler connection. Custom fitment, so may interfere with stock footrests, brake pedal or air cleaner.

782050 Mad Shorty 2-into-2 for 1986 to present Sportster

782051 Mad Long 2-into-1 for 1986 to present Sportster

RED THUNDER SLIP ON MUFFLERS

Red Thunder was founded in 2014 in Italy and has been conquering the world ever since. These slip-on mufflers are easy to install on the stock exhaust headers and are E-approved, so Street Legal all over the European Community.

Fits 2014 to present XG500 & XG750 Street

781800 Black ceramic coated, single muffler

Fits 2018 to present Milwaukee Eight FXFB & FXFBS Softail Fat Bob

781809 Satin Stainless Steel, set of two mufflers

781810 Black ceramic coated, set of two mufflers

Fits 1999-2016 Twin Cam Touring models

781803 Satin Stainless Steel, set of two mufflers

781812 Polished Stainless Steel, set of two mufflers

781804 Black ceramic coated with polished end caps, set of two mufflers

781805 Chrome, set of two mufflers

Fits 2017 to present Milwaukee Eight Touring models

781806 Satin Stainless Steel, set of two mufflers

781807 Black ceramic coated with polished end caps, set of two mufflers

781808 Chrome, set of two mufflers

RED THUNDER 2-INTO-1 EXHAUST SYSTEMS

Red Thunder's 2-into-1 exhausts are a stylish option for that Club-style look on your Harley. Stunning High Quality Stainless Steel and finishes and extreme lightweight. Systems are a 2-piece design with a header unit and separate muffler for excellent integrity. Red Thunder claims great power, designed for good balanced torque and horsepower. Exhausts are E-approved, so they are Street Legal all over the European Community.

Fits Milwaukee-Eight Softail 2018 to present. E-approved for 107CI & 114CI models.

781813 Silver coated 2-into-1 system

781814 Black coated 2-into-1 system

Fits 1986-1999 Evolution Softail and 2000-2017 Twin Cam Softail. E-approved for 80CI, 88CI, 96CI & 103CI models

781815 Chrome 2-into-1 system

781816 Black coated 2-into-1 system

Fits 1991-2000 Evolution Dyna and 1999-2017 Twin Cam Dyna. E-approved for 80CI, 88CI, 96CI & 103CI models

781817 Chrome 2-into-1 system

781818 Black coated 2-into-1 system

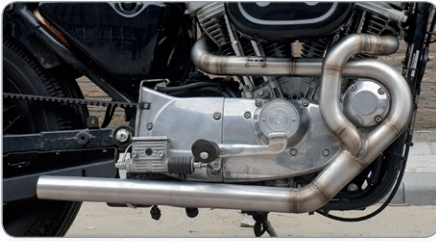

781819 Satin Stainless Steel 2-into-1 system

Fits 2003 to present XL Sportster, E approved for 2003-2016 models

781820 Chrome 2-into-1 system

781821 Black coated 2-into-1 system

781822 Satin Stainless Steel 2-into-1 system

782052 Mad Eleanor 2-into-1 for 1986 to present Sportster

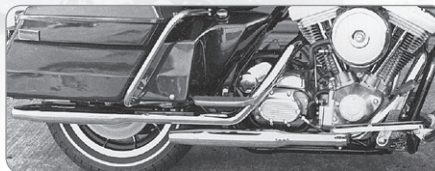

782053 Mad Switch 2-into-1 with long and short turn-out end caps for 1986 to present Sportster

782054 Mad Twister 2-into-1-into 2 for 1986 to present Sportster

Cycle Shack
1 3/4" BALONEY SLICE MUFFLER PIPES FOR ROCKER
 Great looking muffler pipes that bolt straight onto the 2008-2011 FXCW Rocker and FXCWC Rocker C. The 1 3/4" diameter headers gives your Rocker a traditional look, classic loud sound and unleash the power. Available with Baloney Slice or Tapered style mufflers, headers are ready to take the stock O2 sensors.
Note: Also suitable for 2013-2017 FXSB Breakout when installed with ZPN701677 sensor adaptor kit.
Fits 2008-2011 FXCW Rocker and FXCWC Rocker C
731984 Baloney Slice muffler pipes

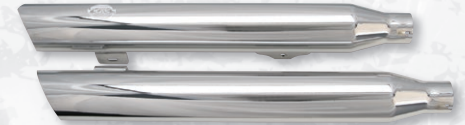

Cycle Shack
TAPERED MUFFLER PIPES
 These tapered muffler pipes are available for 2007 to present FLT-FLHS-FLHT-FLHTC models. Rear pipe mounts to original factory hanger under luggage frame, mounting hardware for front pipe is included.
731586 Fits 2007-2016

NEW
OPEN 2-INTO-1 EXHAUST FOR LATE SHOVELHEAD
 Complete 2-into-1 exhaust with 1 3/4" (44mm) stock diameter headers, 3" (76.2mm) diameter unbaffled open end cannister and header heat shields.

Fits kick- and electric start 1970-1984 Shovelhead with nose cone style engine and forward controls
789411 Chrome 2-into-1 exhaust 1970-1984 Shovelhead Big Twin
789412 Black 2-into-1 exhaust 1970-1984 Shovelhead Big Twin

S&S SLIP-ON MUFFLER KITS
 S&S claims these slip-on mufflers deliver excellent low and midrange torque, all-over performance and improved driveability on stock and Big Inch street engines. S&S slip-on mufflers are finished in show quality chrome, and are compatible with stock headers, mounting brackets, hardware, and heat shields.

S&S TÜV APPROVED AND EC CERTIFIED MUFFLERS
In response to increased demand for S&S products in the European market, S&S now offers these EC compliant replacement slip-on mufflers. These mufflers have been certified by TÜV to meet EC standards and may legally be used to replace stock mufflers for the applications listed in all countries in the European Union. S&S EC compliant mufflers can be used to replace the stock exhaust on emissions controlled vehicles in all countries in Europe. They maintain stock noise and horsepower levels. Sturdy steel construction, and show chrome finish make these the ideal replacement for a damaged stock exhaust. Mufflers are sold in pairs.

750845 Fits 2005-2007 VRSCR Street-Rod

S&S 4" DELUXE MUFFLERS FOR TOURING

The Deluxe mufflers have been discontinued by S&S, but we still offer some replacement parts in case of damages. End caps measure 4" (102mm) diameter and are sold as a set.

Chrome end cap	Black end cap	
760578	760579	Basic
760580	760581	Sculptured
-	760583	Power Burn

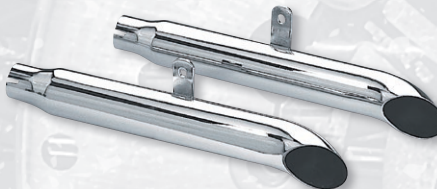

S&S STAINLESS PERFORMANCE OVAL EXHAUST

If you want to go fast, but you don't want all the noise, the S&S Stainless Performance Oval (SPO) Touring style mufflers are just what you are looking for. With a pleasing low rumble, reminiscent of the big block muscle cars of the late 1960's, the S&S SPO mufflers are easy on the ears while they add some extra muscle to your bike. In addition, the reasonable exhaust volume and the dual wall chrome plated construction allow you to listen to the blues on your stereo as you cruise down the highway, without worrying about your exhaust system turning blue while you do it. S&S SPO mufflers look great, but the most gratifying part is when the extra power takes you around that semi quickly and safely with just a twist of the throttle.

Fits 1995 thru 2016 FLH and FLT series Touring models, except US Domestic 2010 FLHX Street Glide and 2010 FLTR Road Glides equipped with the stock 2-into-1 exhaust system

752112 S&S Stainless performance muffler with chrome billet end caps

Cycle Shack

"SLIP-FIT" REPLACEMENT MUFFLERS

Replacement mufflers with mount tabs that bolt directly to the factory pipe bracket. Re-use stock clamps and hardware. The mufflers are lighter in weight and have an all steel core that will not burn out. Available in 3 different styles for Softail 1984 thru 1999, Softail Twin Cam 2000 to present, FXD Sturgis and Dyna models 1991 to present, and Sportster models 1980 to present. Slip fit mufflers for FLH and FLT models 1985 to present are available as Turn-Out mufflers only. All these mufflers are sold in pairs.

Fits FLHT-FLT 1985 thru 1994 (sold in pairs)

237117 Turn Out mufflers

SLIP-ON MUFFLERS FOR BIG TWIN AND SPORTSTER

Chrome replacement mufflers that slip straight onto the stock headers on Harley-Davidson Touring, Softail, Dyna and Sportster models. Available as muffler bodies only without baffles, or with baffles in 1 3/4", 2" or 2 1/2" inner diameter installed. The larger the baffle diameter, the louder the exhaust system will be. Mufflers come complete with mounting hardware for factory mounting locations, but muffler clamps must be ordered separately.

Note: Straight Tip mufflers also accept Supertrapp/Kerker SE-series end tips.

Fits 1995 thru 2016 Touring models

- 752800** Slash Cut, no baffles
- 752801** Slash Down, no baffles
- 752802** Slash Cut, 1 3/4" baffles
- 752803** Slash Down, 1 3/4" baffles
- 752804** Slash Cut, 2" baffles
- 752805** Slash Down, 2" baffles

Cycle Shack

OVAL SLIP-ON MUFFLERS

Oval shaped mufflers that slip-on to your stock exhaust headers. They feature slash-cut ends, increased dimension baffles and chrome finish. Available for Sportster and many Big Twin models. Bolt-on performance that takes just a few minutes to install.

Softail

731974 Fits 2007 thru 2017 FLSTF Fat Boy, except 2017 European models

Touring

731978 Fits 1995 to present FLH and FLT series models

SAMWEL FISHTAIL MUFFLER FOR WLC

Replica of the fishtail muffler as found on 1940-1942 WLC models supplied to the Canadian Army. Comes with a base black paint, but requires heat-resistant paint finish before use. Sold each.

782948 Muffler for WLC, black (OEM 1035-40M)

MOTORCYCLE PARTS SADDLES & SADDLEBAGS

SAMWEL STRAIGHT PIPE MUFFLER FOR 45CI WL MODELS

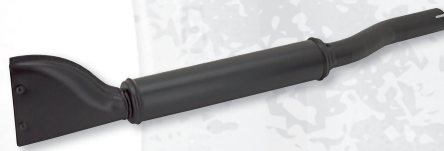

This muffler is a faithful reproduction of the original one found on 1950 thru 1952 45CI Sidevalve models, but also fits 1932 thru 1949 models. Available in chrome or black finish, this muffler will fit straight on to the stock and stock-style aftermarket front pipes. Convenient kits with all 4 clamps are not included but must be ordered separately.

745759 Muffler, chrome (OEM 65227-50)

745763 Clamp set, chrome (OEM 65287-32, 65275-50, 65278-36 & 65510-32)

745760 Muffler, black (OEM 65228-50)

745762 Clamp set, black (OEM 65286-32, 65275-50, 65278-36 & 65510-32)

MOTORCYCLE PARTS SADDLES & SADDLEBAGS

SAMWEL FISHTAIL MUFFLER FOR 45CI MILITARY MODELS

An exact reproduction of the OEM fishtail muffler, bolts straight onto the stock front pipes on your 45CI (750cc) Military WLA model.

Please note that the black paint on these pipes is applied as rust prevention only. We recommend to paint them with heat resistant paint after installation.

745758 Muffler, black (OEM 1035-40M)

MOTORCYCLE PARTS SADDLES & SADDLEBAGS

ORIGINAL STYLE FISHTAIL MUFFLER FOR EARLY MODELS

062028 Chrome plated replacement muffler for early Harley models. Available in a limited quantity. Once sold out, this muffler will probably never be reproduced again (OEM 65227-50).

MOTORCYCLE PARTS SADDLES & SADDLEBAGS

SAMWEL SERVICAR MUFFLER

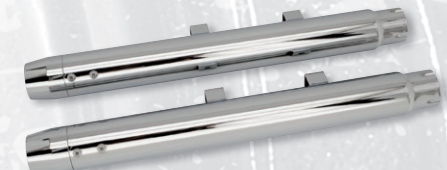

An accurate reproduction of the stock muffler found on all Servicar models 1938 thru 1973. Muffler has a raw finish and is supplied with mounting clamp.

745761 Muffler (OEM 1035-51/65220-51)

RADIUM MUFFLERS FOR SPORTSTER

Slip-on mufflers that install in a glance as they bolt straight onto the stock header pipes. Mufflers are 2 1/4" (57mm) in diameter and feature removable baffles and billet aluminum end caps.

UNIVERSAL STAINLESS MUFFLER

Universal stainless steel mufflers for 1 3/4" (44.5mm) or 2" (50.8mm) diameter headers. Mufflers are 10" (25 cm) long, have a 65mm baffle diameter and include a body mounting clamp. Muffler-to-header clamps must be ordered separately.

062099 "Trumpet" style (47cm)

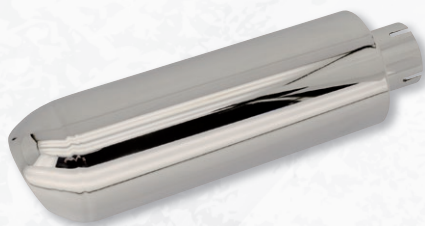

GENUINE ZODIAC 2 YEARS WARRANTY

UNIVERSAL MEGATON STYLE MUFFLER

These classic style universal mufflers were very popular in the sixties and seventies. Back in those days the reverse cone end caps were made out of aluminum, where the current version is chromed for enhanced looks. Mufflers feature a well-proportioned fixed baffle. Fits on 1 3/4" (44mm) diameter or smaller headers. Comes complete with reduction sleeves for use on 1 3/8" (35mm), 1 1/2" (38mm) and 1 5/8" (42mm) headers. A muffler clamp and universal bracket that bolts to the mounting tunnel is also included. Muffler is 17 1/8" (43.5cm) long and is 3 3/4" (9.5cm) in diameter at the end. Can be used left or right. Sold each.

062139 Universal Megaton style muffler

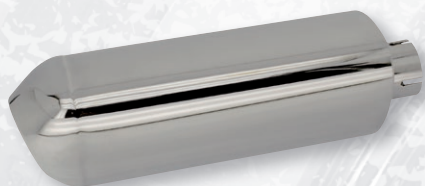

781750 Oval muffler 2"

781751 Oval muffler 1 3/4"

062033 "Turn Out" style (50cm)

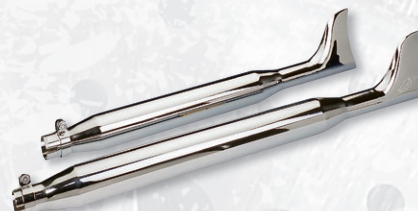

781752 Triangle muffler 2"

781753 Triangle muffler 1 3/4"

062002 "Shorty" style (30cm)

GENUINE ZODIAC 2 YEARS WARRANTY

CLASSIC UNIVERSAL FISH TAIL MUFFLERS

These beautiful chrome plated Fish Tail mufflers are available in two lengths, 30" (76cm) and 36" (91cm). Both mufflers have 1 3/4" (4.5cm) inlets and 2 7/8" (7.3cm) bodies. Header clamp is included, 2 7/8" frame mounting clamp must be ordered separately. They look great on any single or dual dresser exhaust system. Sold each.

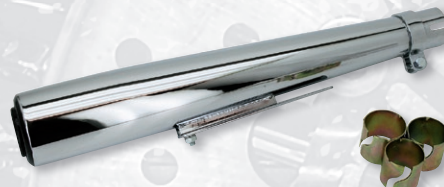

062091 Tapered Fish Tail muffler 30" (76cm)

062092 Tapered Fish Tail muffler 36" (91cm)

736066 Black, with cross over head pipe
736068 Black, without cross over head pipe
735791 Adapter bracket kit for Trikes

TWO BROTHERS RACING TRUE DUAL HEADERS FOR TOURING

Brushed Stainless Steel true dual set up with a hidden crossover. Features all TIG hand welding, accepts stock O2 sensors and uses stock heat shields. Fits with stock and most performance mufflers.

753146 Fits 2010 thru 2016 Touring

S&S POWER TUNE HEADERS FOR TOURING & TRIKE

S&S claims that these headers for 1995 to present Harley-Davidson FLH and FLT series Touring, as well as on Trikes add 8 horsepower over the stock header pipes. They give a true independent dual look and feature a hidden crossover. The rear cylinder header is fitted under the bike to reduce radiated heat to the passenger. Headers are chrome and come with chrome or black heat shields. Since the heat shields provide 220 degrees coverage, the version with the black shields looks like completely black. The updated styling gives the bike a modern look. Headers are equipped with Oxygen sensor bungs and come complete with block-off plugs. Headers have a spherical inlet design for improved sealing and exhaust gasket durability and come complete with hardware to mount the crossover pipe. S&S Power Tune headers are compatible with all slip-on mufflers designed for stock headers.

Fits all 1995 thru 2008 FLH and FLT series Touring models

Have 18mm Oxygen sensor fittings in the stock 2007 and 2008 position. If not equipped with oxygen sensors, the ports can be used for tuning. Caps are included to block off ports.

752109 Chrome with chrome heat shields

760064 Black (chrome with black heat shields)

Fits all 2009 thru 2016 FLH and FLT series Touring. Also fit Tri-Glide trikes with the separately available adapter kit

Have both 12 and 18mm Oxygen sensor fittings in the stock locations. Caps are included to block off both sets of ports.

752110 Chrome with chrome heat shields

760569 Optional adapter kit for 2009-2016 Tri Glide

SUPERTRAPP 2-INTO-1-INTO-2 HEADERS FOR TOURING

SuperTrapp 2-into-1-into-2 headers substantially outflow the stock header units on Touring models. They take the heat shields from the stock exhaust system and are great in combination with SuperTrapp's SE series slip-on mufflers but can also be used with stock, OEM Accessory or any other brand slip-on mufflers designed for these models. These headers feature the 12mm oxygen sensor bungs in the stock position.

739896 Fits 2010 thru 2016 Touring models

757123 Fits 2017 to present Touring models

SUPERTRAPP TRUE DUAL CROSS-OVER HEADERS FOR TOURING

SuperTrapp True Dual cross-over exhaust systems are designed for FLH/FLT series Touring to increase torque and horsepower and are great in combination with SuperTrapp's SE series slip-on mufflers but can also be used with stock, OEM Accessory or any other brand slip-on mufflers designed for these models. Headers feature heat shields and O2 sensor bungs and come complete with plugs that are to be used on models that originally do not use O2 sensors.

733174 True Dual cross over headers for 1985-2008 Touring

733175 True Dual cross over headers for 2009 Touring

739878 True Dual cross over headers for 2010 thru 2016

733047 Muffler set, fits FLH and FLT series 1995-2009

733128 Muffler set, fits FLH and FLT series 2010 thru 2016

Cycle Shack

CYCLE SHACK'S DRESSER DUALLIES 2007-2008 TOURING

Cycle Shack's "Dresser Duallies" are 2" diameter stepped crossover head pipes that offer increased flow and performance for the late 96CI and larger displacement motors. Head pipes exit on each side of the bike for a traditional touring bike look and feature O2 sensor bungs. Installation of these headers eliminates the stock rear cylinder Y-pipe. The ZPN731989 and ZPN731990 mufflers are matched with these 2" diameter head pipes and feature a high-flow 2" diameter, baffle. The Quiet Series mufflers feature a stainless steel sound blanket for less crackle, so you can hear your stereo. Fits all 2007-2008 Touring models. Head pipes and mufflers are sold separately.

731988 Dresser Duallies header set

731989 Dresser Duallies muffler set

731990 Dresser Duallies Quiet Series muffler set

SAMWEL FRONT PIPES FOR 45CI MODELS

Accurate reproduction of the stock front pipes on 45CI (750cc) models, available in black or chrome finish. Fits all 1932 thru 1952 45CI Solo's and all 1932 thru 1973 Servicar. Convenient kits with all 4 clamps for the exhaust system must be ordered separately.

Please note that the black paint on these pipes is applied as rust prevention only. We recommend to paint them with heat resistant paint after installation.

745752 Downpipe set, black (OEM 1006-41/65452-41 & 1007-41/65490-41)

TUCK & UNDER HEADERS FOR VICTORY

These are True Dual head pipes, eliminating the catalytic converter and providing unbeatable performance. They eliminate the stock cross over head pipe on Twin Cam models and consequently reduce heat with approximately 30%. Headers for Milwaukee Eight powered models are available with or without cross over head pipe. These headers work with both stock and aftermarket mufflers, no matter if it is a stock or Big Inch Monster Motor. Features 1 3/4" (45mm) headers and 220 degree, 16 gauge heavy duty full coverage 2 1/2" (64mm) outer diameter heat shields. These headers come with all mounting hardware and have O2 ports in the stock positions. Available in chrome or black ceramic coated.

2007-2017 Victory Cross Country, Cross Country Tour, Cross Country 8-Ball, Cross Road, Magnum and LE models

VMV00041 Chrome
VMV00042 Black

MUFFLER CLAMP LATE FLT'S

This muffler clamp is designed to install aftermarket exhaust pipes on the 1985 and later FLT models. This clamp mounts to the original mounting bracket on the FLT frame. Sold each.
061149 Muffler Clamp

TRUE DUAL HEADERS FOR PANHEAD & SHOVELHEAD

These 3-piece crossover header sets have the stock 1 3/4" (45mm) in diameter. Installation requires hand fitting during final assembly. It is required to loosen motor mount bolts during installation to allow pipes to adjust to motor position. Then re-tighten engine bolts. Headers have a chrome finish.

781221 Fits 1948 thru 1964 FL models (OHV 74CI Big Twin), also known as Panhead

781230 Fits 1965 FL models (OHV 74CI Big Twin), also known as Panhead

781222 1966 thru 1969 FL models (OHV 74CI Big Twin), also known as Shovelhead

Fits 1970-1984 rigid frame Shovelhead Big Twin, does not fit with electric start wrap-around style oil tank

233192 Fits 1 1/2" (36 to 40mm) mufflers

233193 Fits 1 3/4" (41 to 46mm) mufflers

233194 Fits 2" (48 to 53mm) mufflers

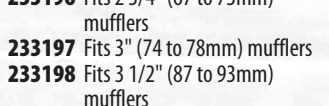

233195 Fits 2 1/4" (55 to 59mm) mufflers

233201 Fits 2 1/2" (60 to 66mm) mufflers

233196 Fits 2 3/4" (67 to 73mm) mufflers

233197 Fits 3" (74 to 78mm) mufflers

233198 Fits 3 1/2" (87 to 93mm) mufflers

P-STYLE MUFFER CLAMP

Made of thick, 1" wide steel and available to fit three different diameters muffer bodies: 2 1/2", 2 7/8", 3 1/4". In chrome or Stainless Steel.

061220 [A] 2 1/2" Chrome

061222 [B] 2 1/2" Stainless Steel

061221 [A] 2 7/8" Chrome

061223 [B] 2 7/8" Stainless Steel

061145 [A] 3 1/4" Chrome

(OEM 65293-58)

061163 [B] 3 1/4" Stainless Steel

(OEM 65293-58)

T-BOLT STYLE MUFFER CLAMPS

Exactly the same stainless steel band style clamps as used by Freedom Performance on all their exhaust systems. Can of course be used for every muffer or exhaust.

735776 Fits 1 3/4" (41-46mm) mufflers

735777 Fits 2" (48-53mm) mufflers

735778 Fits 2 3/4" (67-73mm) mufflers

SUPERTRAPP MUFFER CLAMPS

All Stainless Steel replacement muffer body clamps for Super-Trapp systems. Also usable for many custom applications.

233174 Clamp 3 1/2"

233175 Clamp 4 1/2"

DRAG PIPE BAFFLES

Drag pipe baffles fit inside tubes with an inner diameter as indicated. All steel construction. Sold each.

063001 4" (10.2cm) long mini baffle, 36mm diameter

063003 4" (10.2cm) long mini baffle, 41mm diameter

063006 4" (10.2cm) long mini baffle, 48mm diameter

063009 12" (30.5cm) long baffle, 36mm diameter

063008 12" (30.5cm) long baffle, 41mm diameter

063010 12" (30.5cm) long baffle, 48mm diameter

FREEDOM PERFORMANCE MUFFER RE-PACKING MATERIAL

Exactly the same as used in many Freedom Performance mufflers. Glass fiber muffer packing material has better acoustical properties as steel wool. Can also be used to wrap around the baffles of most other exhaust systems. Pack contains enough material for two mufflers.

735765 Acoustical glass pack for two mufflers

"TUFF SEAL" EXHAUST PORT GASKETS

The "Tuff Seal" is a metal core, silicone-impregnated material which has a tough alloy ring around the inside edge to keep exhaust gasses from escaping and to ensure a faultless pipe to head seal. Fits Shovelhead motors from 1966 thru 1984. Sold in 10 packs (OEM 65834-68A).

JAMES EXHAUST STUD KIT FOR SHOVELHEAD

Genuine James exhaust stud kit contains 2 short studs for early cylinder heads, 2 long studs for late cylinder heads, 2 firing exhaust gaskets and 2 chrome acorn nuts. Fits all Shovelheads 1966 thru 1984.

742509 Shovelhead exhaust stud kit

ACORN EXHAUST KIT

Exhaust gasket kit with chrome plated Acorn nuts. Fits all Evolution models 1984-1999, Twin Cam 1999 to present, Sportster 1985 to present and Milwaukee-Eight.

231169 Exhaust kit

COLONY SHOVELHEAD EXHAUST FLANGE LOCKING BOLT

The permanent cure to prevent that exhaust bolts on Shovelheads are falling off, even without the use of Loctite or safety wire. Kits contain 2 bolts, 2 special washers and 2 retaining rings and fit all 1966 thru 1984 Shovelhead Big Twins.

781292 Chrome plated kit

781293 Zinc plated kit

ATHENA

EXHAUST GASKETS FOR SHOVELHEAD

Exhaust gaskets from Athena and James for Shovelheads 1966 thru 1984 are sold to dealers in 10-packs. Firing gaskets have a copper inside ring, SteelCore gaskets are metal covered on both sides and also have a copper inside ring (OEM 65834-84A).

700389 Athena Firing

740337 James Firing

700388 Athena Steelcore

740430 James Steelcore

MUFFLER TO HEAD PIPE CLAMP GASKET

Copper gasket, fits all FLT models with two-piece exhaust pipes 1985 thru 1994. Made by James. Sold in dealer 10-packs (OEM 65721-85).

740429 Muffler clamp gasket, dealer 10-pack

EXHAUST MOUNTING FLANGE AND RETAINING RING KITS

These kits contain two exhaust flanges and a pair of retaining rings. Flanges and retainer rings are also available separately.

Fits Evolution Big-Twins 1984 thru 1999, Softail 2000 thru 2003, Dyna 1999 thru 2003, all Touring 1999 to present and Evolution Sportster 1986 thru 2001.

232712 Kit with chrome exhaust flanges

027583 Chrome exhaust flanges only, pair (OEM 65328-83)

Fits 2004 to present Softail, 2006 to present Dyna, 2010 thru 2011 CVO Touring and 2002 to present Sportster

027584 Kit with polished stainless exhaust flanges (OEM 65184-02)

027585 Kit with chrome exhaust flanges (OEM 65184-02)

027586 Kit with black exhaust flanges (OEM 65184-02)

Retaining rings for Evolution Big Twin, Twin Cam and Evolution Sportster

233492 Retaining rings, 10 pack (OEM 65325-83)

742493 Retaining rings, 2-pack (OEM 65325-83)

JAMES GASKET EXHAUST MOUNTING KITS

Kits with nuts, retaining rings and exhaust port gaskets fit all air cooled Buell models, Evolution Sportster, Evolution Big Twin, Twin Cam, Milwaukee-Eight and S&S X-Wedge.

740604 Kit with 4 hex flanged nuts (OEM 7593), 2 exhaust retaining rings (OEM 65325-83) and 2 conical knitted wire gaskets (OEM 65324-83A)

740705 Kit with 4 chrome acorn nuts, 4 washers, 2 exhaust retaining rings (OEM 65325-83) and 2 flat graphite knitted wire gaskets (OEM 65324-83)

742492 Kit with 4 hex flanged nuts (OEM 7593), 2 exhaust retaining rings (OEM 65325-83) and 2 flat Stainless Steel knitted wire gaskets (OEM 65324-83)

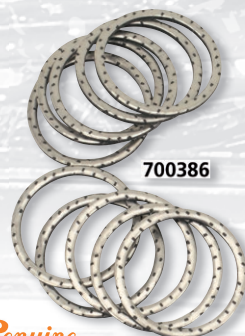

742491 Kit with 4 hex flanged nuts (OEM 7593), 2 exhaust retaining rings (OEM 65325-83) and 2 copper crush type gaskets

TWO BROTHERS RACING STEEL HEADER FLANGES

These machined steel and nickel coated exhaust flanges are a low profile replacement for cracked, damaged or tired and worn stock flanges on 1984-1999 Evolution Big Twin, 1999-2017 Twin Cam, 2017 to present Milwaukee Eight and Sportster 1984 to present. Flanges feature etched "TBR" logo and are easily installed. Sold in sets of two but do not include replacement gaskets, see elsewhere in our catalog.

753225 Two Brothers Racing steel header flanges (OEM 65328-83)

700386

ATHENA

1984 TO PRESENT EXHAUST PORT GASKETS

Introduced on the 1984 Evolution Big Twin as a flat gasket (OEM 65324-83), then changed to an internal conical shape in 1992 (OEM 65324-83A), and then The Factory changed back to the flat type in 2009. Harley even offers a flat type knitted stainless steel wire type as a set of 2 (OEM 17048-98) The flat type is preferred by many because of their better flow characteristics, others prefer the conical type because of its better sealing. No matter which style you prefer, they fit all air cooled Buell models, Evolution

Sportsters, Evolution Big-Twins, Twin Cam models, Milwaukee-Eight and S&S X-Wedge.

Flat type exhaust port gaskets, 1984-1991 & 2009 to present style (OEM 65324-83)

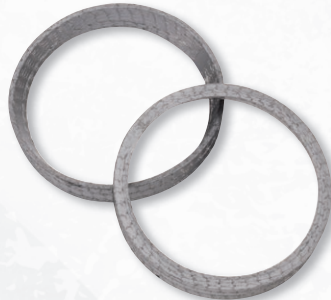

700386 Two side metal covered, Athena, dealer 10-pack

740338 Compressed wire, Genuine James, dealer 10-pack

Flat type Screamin' Eagle performance style exhaust port gaskets (OEM 17048-98)

748876 Spiral wound graphite, Cometic, dealer 10-pack

231624 Stainless Steel knitted wire gaskets only, Genuine James, 2-pack

Genuine
JAMES

NEW

EXHAUST INTERCONNECT GASKETS FOR SOFTAIL & SPORTSTER

Fits 2006 FLST Heritage Softail, 2000-2006 FLSTC Heritage Classic, FXST Softail Standard & FXSTS Springer, 2000-2009 FXSTB Night Train and 2004-2013 XL Sportster. Sold in sets of two.

758543 Set of two exhaust interconnect gaskets (OEM 65927-00)

JIMS

JIMS EXHAUST GASKET INSTALLER TOOL

This Jims Exhaust Gasket Installer will safely install exhaust gasket seal on air cooled Buells, Evolution Sportster, Evolution Big Twin, Twin Cam and Milwaukee Eight evenly and square without distorting the seal. Without a proper tool, installing could run the risk of developing an exhaust leak. The tool uses either the two exhaust stud flange nuts from the exhaust system or a JIMS tool handle ZPN235804 to install the seals. Manufactured from high grade 6061 aluminum, and then finished with JIMS blue anodizing.

751084 Exhaust gasket Installer Tool

Genuine
JAMES

EXHAUST GASKETS FOR V-ROD

Strongly recommended to replace when re-fitting the stock headers or an aftermarket exhaust system.

Fits 2002-2008 V-Rod

751439 Stock replacement, set of two (OEM 65109-01)

751460 Set of two, compressed wire with graphite, James (OEM 65109-01)

760072 Set of two, graphite, Cometic (OEM 65109-01)

760057 Set of two, knitted stainless, Cometic (OEM 65109-01)

Fits 2009-2017 V-Rod

751482 Set of two, compressed wire with graphite, James (OEM 64971-09)

Conical style exhaust port gaskets, 1992-2008 style (OEM 65324-83A)

748836 Spiral wound graphite, Cometic, dealer 10-pack

740428 Compressed wire, Genuine James, dealer 5-pack

700392 Spiral wound graphite, Athena, dealer 5-pack

Also available

742490 Copper crush type Firing design, Genuine James, dealer 10-pack

JIMS

JIMS EXHAUST STUD DRILL PLATE

This tool is designed to guide and keep alignment of the drill bit when drilling out broken exhaust studs. A follow up with a tap is all that is needed to clean up threaded hole. This tool can be used with motor in most frames. Will work on Big Twin 1984 thru 1999, Twin Cam 1999 thru 2017, Milwaukee Eight 2017 to present, Sportster 1986 to present and Buell 1987 to present.

233144 Exhaust stud drill plate

COMETIC
GASKET

MUFFLER GASKET

Seals the muffler body on the header. Fits all 2018 to present Softail (except FXDR), all 2017 to present European Sportster, 2017 European Softail FLS Slim, FLSTC Heritage, FLSTF & FLSTFB Fatboy, FLSTN Deluxe and FXSB Breakout, and 2017 European Dyna FXDB Street Bob & FXDL Low Rider (OEM 65900017).

740779 Muffler gasket, sold each

790043 Muffler gasket, Cometic, pair

JIMS

JIMS EXHAUST RETAINING RING TOOL

This patent pending installation tool installs the exhaust pipe retaining ring on almost all exhaust system on air cooled Harleys and Buell's from 1984 to present quickly and easily without scratching the exhaust pipe or twisting the ring.

751116 Jims Exhaust pipe retaining ring tool

235804 Race & bearing installation tool

Genuine
JAMES

EXHAUST FLANGE NUTS

Flanged 5/16-24 nuts are used in many places, such as on the exhaust port studs. Sold in packs of 8 (OEM 7593).

701969 8-pack 5/16-24 flanged nuts

PROVEN
S&S
PERFORMANCE

EXHAUST PORT STUDS

Stock replacement exhaust port stud. Fits 1984 thru 1999 Evolution Big Twin, 1999 thru 2017 Twin Cam, 1986 to present Sportster and air cooled Buells. Sold each.

750804 Exhaust port stud (OEM 16715-83)

Genuine
JAMES

EXHAUST GASKETS FOR XG STREET

Strongly recommended to replace when re-fitting the stock headers or an aftermarket exhaust system.

Fits 2015 to present XG500 Street, XG750 Street and XG750 Street Rod

790067 Set of two, compressed graphite and wire mesh, James (OEM 65900011)

Genuine
ZODIAC

FLAMING SKULL HEAT SHIELD

These beautiful flaming skull heat shields with bright chrome finish are quick and easy to install. The overall length is 10" and they fit all 2" to 2 1/4" (51 thru 58mm) diameter exhaust pipes. Sold in sets of 2 including mounting straps.

741569 Flaming skull heat shield

EXHAUST HEAT SHIELD

Beautifully chromed heat shield protects the passenger's boots and pants. Recommended when using a custom exhaust system. Fits 1 3/4" pipes. Shield is 7" long (OEM 65270-84T).

061317 Exhaust Heat Shield

"TITANIUM" EXHAUST WRAP

"Titanium" Exhaust Wrap is constructed from pulverized lava rock, extruded into fibers and then woven into a tight weave. This gives the material titanium-like strength and durability capable of withstanding direct heat up to 1800°F (980°C) and 2500°F (1,370°C) of radiant heat. This material's ability to handle more heat means increased exhaust flow for improved performance and more horsepower. Another advantage is that less heat means less chance of damaging vital engine components. "Titanium" exhaust wrap is extremely pliable, together with its narrow width makes a neat installation on motorcycle exhausts an easy job. Comes on rolls of 1"x50 feet (2.5 cmx1525cm), enough to cover a set of headers on almost any Harley. Stainless steel locking ties must be ordered separately.

743102 "Titanium" exhaust wrap, roll of 1"x50 feet (2.5cmx1525cm)

743103 Pack of 8 pcs. 8" (20cm) long stainless steel locking ties

EXHAUST INSULATING WRAP

The Original Exhaust Insulating Wrap was developed back in 1986 by Thermo-Tec. Exhaust Insulating Wrap is an innovative way to create more horsepower as wrapping headers with Exhaust Insulating Wrap maintains hotter exhaust gases that exit the system faster through decreased density. This produces increased exhaust scavenging, as well as lower intake temperatures. Exhaust Insulating Wrap withstands continuous heat up to 2000°F; it contains no asbestos. Thermo-Tec's exhaust wrap will not over-insulate a system when properly installed, due to a proprietary coating, Thermal-Conduction-Technology (TCT), developed by Thermo-Tec, that conducts heat across the wrap's surface. This unique coating controls heat built-up and dissipation. Exhaust Insulating Wrap is sold in 50 feet (over 15 meter) rolls, 2" wide. Exhaust Wrap has a low profile 1/16" thickness. In order to make installation easier and neater, you can use Snap-Strap, stainless steel strapping material that has a low profile to fit in tight spots. It can easily be cut to the required length and is secured with easy to use slide-through fasteners. Snap-Strap is sold in kits containing 8 pieces of 9" long and 20 clips.

741370 Graphite White Wrap, 2"x1/16"x50 feet

741371 Graphite Black Wrap, 2"x1/16"x50 feet

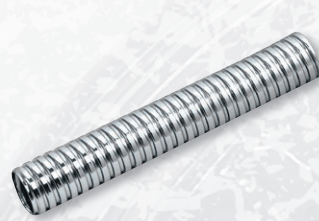

741374 Snap-Strap, kit of 8 pieces and 20 clips

RIBBED HEAT SHIELD

Beautifully chrome plated heatshield to fit the OEM front cylinder head pipe on Softail models 1984 to present and FXR models 1986 thru 1994. Easy to fit as it comes including Stainless Steel mounting clamps and follows the shape of the OEM down pipe exactly.

061329 Ribbed heatshield

CHROME FLEXIBLE EXHAUST COVER

Originally used on the early Panheads and Knuckleheads, these 12" long exhaust covers give your bike that nostalgic look. Fits most 1 3/4" two-piece pipes.

012434 Flexible Exhaust Cover

COLONY REPLICA EXHAUST BOOT GUARD

Accurate reproduction of the OEM rear exhaust pipe fitted accessory boot guard for 1936-1948 Flathead and 1936-1947 Knucklehead. Features drilled hole HD pattern and is 5 1/2" (14cm) long.

781258 Chrome boot guard, Colony USA (OEM 11500-38, 65700-38)

781259 Parkerized boot guard, Colony USA (OEM 11500-38, 65700-38)

DEI EXHAUST SLEEVE

Great looking alternative for traditional exhaust wrap. The insulating capacities of this material increase horsepower by maintaining hotter exhaust gasses and reduces the chance you burn your boots or legs on the exhaust surface. Comes with 4 stainless steel locking ties and a tie tool to ensure a secure fit.

743449 5 Feet (152cm) sleeve for 1 3/4" thru 2 1/4" (44.5-57mm) tubes

DEI FLEXIBLE HEAT SHIELDS

Are you tired of burning your legs against the exposed headers of your exhaust system? Is the exhaust wrap you mounted not quite doing the job? Or do you just want to protect or cover part of the exhaust with a flexible-mount heat shield? DEI offers a solution for everyone with the Flexible heat shields, featuring a stainless steel bracket covered by the same materials used for their exhaust wraps we offer elsewhere in our catalog. As an added feature, the wrap covers block heat more effective than stamped metal shields.

743445 Onyx, 3 1/2" x 6 1/2" (89x165mm)

743446 Titanium, 3 1/2" x 6 1/2" (89x165mm)

743447 Onyx, 4" x 8" (101x202mm)

743448 Titanium, 4" x 8" (101x202mm)

SPRINGS FOR TWO BROTHERS RACING EXHAUST

Stainless steel springs as used on many Two Brothers Racing exhaust systems. Can also be used on other exhaust systems. Unloaded length 48mm.

753227 TBR exhaust spring

DEI NARROW BAND EXHAUST WRAP

DEI exhaust wrap is designed to keep heat contained within the metal pipes of the exhaust system. This keeps the heat longer in the exhaust gasses, which will increase the rate of gas flow out of the engine and exhaust system. Wrapping your headers with DEI's exhaust wrap will provide additional horsepower, engine protection and rider and passenger comfort. DEI exhaust wrap is manufactured with a hi-temp fiberglass composite material and then infused with a proprietary coating to enhance heat retention and expanded durability of the exhaust wrap. DEI is the only manufacturer to add a 1/4" overlap as a guideline in their instructions of the exhaust wrap to ensure proper installation without guesswork. Together with its narrow width this makes installation on motorcycle headers an easy job. Comes on rolls of 1"x50 feet (2.5cmx1525cm), enough to cover a set of headers on almost any V-Twin motorcycle. Available in tan and carbon-look black. Stainless steel locking ties must be ordered separately.

743100 Tan exhaust wrap, roll of 1"x50 feet (2.5cmx1525cm)

743101 Black exhaust wrap, roll of 1"x50 feet (2.5cmx1525cm)

743103 Pack of 8 pcs. 8" (20cm) long stainless steel locking ties

CRUZTOOLS MAX HOOK SPRING PULLER

We've tried other spring hooks, and they just didn't cut it-either the hook was too flimsy or we couldn't get enough leverage. The MaxHook's T-handle provides plenty of leverage. And instead of welding the hook onto the rod, which can become brittle and break, CruzTools CNC machined it right out of the rod stock, then bent it.

740304 MaxHook Spring Puller

UNIVERSAL FLAT STRAPS

For mounting exhaust pipes, mufflers, lights and many other custom applications.

061310 Short

061311 Medium

061312 90 Degrees

EXHAUST TORKE VALVES

Create your own Anti-Reverse system with our Torke Valves. They fit into the exhaust at header to cylinder head connection. It gives the correct back pressure within the system by creating a venturi. At low engine speeds the taper of the torke valve increases back pressure resulting in increased low RPM power and torque. At high engine speeds, the venturi increases exhaust gas velocity. This maximizes engine power by increasing the rate at which the exhaust gases are drawn from the exhaust ports. Fits all OEM and aftermarket pipes on all Evolution Sportsters and Evolution Big-Twins. Sold in sets.

237358 Torke valve set

EXHAUST BRACKETS FOR EVOLUTION SOFTAIL MODELS

Show chrome exhaust bracket. Fits all front and rear pipes on most Softail models 1984 thru 1999. Does not fit FLSTF FatBoy and FLSTN Nostalgia with stock or stock style mufflers.

A Fits 1984 thru 1994 models, except FLSTF Fat Boy (OEM 65459-84A)

061330 Chrome, Genuine Zodiac

B Fits 1995 thru 1999 models, except FLSTF Fat Boy and FLSTN Nostalgia (OEM 65459-95)
061331 Chrome, Genuine Zodiac

SPECIAL WRENCHES

Special reversible ratcheting wrenches, designed to do a specific job. Feature ergonomic vinyl grips that also prevent from scratching or marring the bike.

500405 Exhaust bracket wrench for 1999 thru 2017 Dyna models. Features a shortened and replaceable T-17 Torx bit. The low profile design allows for easy access to the exhaust bracket in between the frame and the engine.

MUFFLER MOUNT RUBBER FOR TOURING MODELS

An exact reproduction of the stock muffler mount rubbers as found on all Touring models 1985 to present. We recommend to replace the stock rubbers when you install new mufflers as it is usually a pain in the you-know-where to remove the old ones. Sold in packs containing 2 units.

351496 Muffler mount rubbers for Touring models (OEM 65724-85)

BRASS BALLS CYCLES RIBBED EXHAUST TIPS

The quickest & easiest way to add some cool to your bike. Slip them onto 1 3/4" (44.5mm) Outer Diameter pipes and slide them to the internal stop. Tighten supplied set screws and you're done. It couldn't be any easier and it's hard to get much cooler. Machined from 6061 billet aircraft grade aluminum.

753804 Ribbed raw aluminum tips for 1 3/4" pipes, set of 2

DONUTS TO FABRICATE CUSTOM EXHAUST SYSTEMS

These donuts are great for those who want to make their own design exhaust. Full 360 degree bends allow you to cut just the angle you need. These donuts come in an extremely small radius, a radius much smaller than ever considered as being possible to produce on mandrel bending equipment. The special production process guarantees 100% wrinkle free bends with 0% crimping.

306014 Mild Steel, 1 3/4" (44.5mm)

306015 Mild Steel, 2" (50.8mm)

BILTWELL DRAGPIPE END CAPS

Solid billet aluminum end caps that fit straight into 1 3/4" (44.5mm) outer diameter drag pipes. Sold in sets of 2.

HOOKER MANDREL J AND U BENDS

For those who are looking for a true one-of-a-kind exhaust system we offer 16 gauge 180° J-bends and U-bends to allow you to build your own design exhaust system. Hooker bends are made on the industry's most up-to-date mandrel bending machines to ensure smooth wrinkle-free bends with no crimping. We supply mild steel U and J bends, as well as Stainless Steel J- bends. Diameters are outer.

Mild steel 6" radius U-bends with two 12" long legs

720575 1 3/4" (45mm)

720576 2" (51mm)

O2 SENSOR BUNG PLUGS

These M18x1.5 plugs are used when you do not want to use the O2 sensors on fuel injected Sportster models 2007 to present, Softail and Dyna 2007-2011 and Touring models 2007-2010.

735750 M18 x1.5 O2 sensor bung plugs, pair

WELD-IN SENSOR BUNGS

Accessory weld-in 18mm sensor bungs with cap for exhaust systems that have 12mm sensor bungs or no sensor bungs at all. A must when installing a ThunderMax Fuel Injection or other Fuel Injection system or tuner that requires the use of Wide-Band Oxygen sensors. Sold each.

723236 Straight

723237 Angled

TRICK BOX BYPASS MODULE FOR STOCK "ACTIVE INTAKE & EXHAUST SYSTEM"

Harley used the Active Intake System (AIS) on 2007 Touring and 2007 thru 2015 Dyna & Softail and the Active Exhaust System (AES) on the European 2007 thru 2016 Dyna & Softail to comply with the latest EU noise emission regulations. The AIS creates a problem for those who want to install an aftermarket air cleaner as removal of the air cleaner back plate will cause the AIS to light a "Fault" warning light on the dash. Installation of this Trick Box Bypass module fools the OEM on-board computer and eliminates the "Fault" light problem. The AIS Trick Box is an OEM style connector that simply plugs into the 2-way socket in stead of the stock Active Intake solenoid plug. The Active Exhaust System (AES) is an ECM-controlled electric motor to open or close a valve in the exhaust system to meet the EU exhaust noise standards. For those who want to install a complete aftermarket exhaust system it is necessary to trick the ECM "Fault" warning module to prevent the warning light coming on on the dash. The AES Trick Box also plugs into the stock wiring harness and replaces the signal from the original exhaust stepper motor and stops the light coming on.

745584 Set of two by-pass modules for use with aftermarket air cleaner (without Active Intake System) & and aftermarket exhaust (without Active Exhaust System)

702022 Active Intake System bypass module only

RETROFIT OXYGEN SENSOR EXTENSION HARNESS

NAMZ produces these kits for those who want to fit an aftermarket exhaust system designed for a 2009 FLH or FLT onto a 2010 or later FLH or FLT series Touring model, or from their 2007 thru 2011 Softail or Dyna onto a 2012 to present Softail or Dyna. O2 sensors on the later models are much further back on the head pipe and the O2 sensors are smaller in diameter as on older models. These kits include two 18mm to 12mm O2 bung adaptors and a harness extension to retrofit older exhausts on the later models. The Plug-n-Play kit comes with the wiring connectors installed, the economy kit only has the wire terminals installed and must be used with the OEM connectors.

701677 Plug-N-Play O2 retrofit kit

701678 Economy O2 retrofit kit

OXYGEN SENSOR SOCKET TOOL

This tool is used to remove or install the oxygen sensor on all FLH and FLT series Touring models 2006 thru 2009, Softail, Dyna and V-Rod 2006 thru 2011, 2007 to present Sportster and closed loop fuel injected Buell models. Socket has a 3/8" drive receiver or can be used with a 7/8" wrench. Socket will withstand up to 125 lb/ft of torque.

751055 Fits all unheated Fuel Injected Oxygen Sensor equipped models 2006-present
