THE SUPER NUT FOR BIG TWIN TRANSMISSION SPROCKET

Stops sealing problems of the 4 Speed transmission output shaft, at a very affordable price. It helps avoid transmission oil leakage as a result of main drive gear bushing wear. Fits 1936 thru 1964 (open and closed primary), 1965 thru 1969 (open primary) and 1970 thru 1986 without any modification.

346011 Super nut

JIMS MEGA NUT

The proven cure for the loose pulley nut. The JIMS mega nut has a lock plate built in and can also be secured in several additional places by an easy drilling and tapping operation. Available for all Big Twin, Twin Cam and Sportster models from 1993 to present.

233459 Fits 1993 to present Sportster and 1993 thru 2006 Big Twin and Twin Cam models, except 2006 Dyna

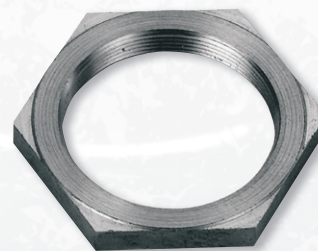

751114 Fits 2006 thru 2017 Dyna and 2007 to present Softail and Touring models

CHROME HARDWARE KIT FOR BELT PULLEYS

Kit with five chrome 7/16-14x1 1/2" UNC button head Torx bolts, chrome washers and a 3/8" drive Torx bit. Works on 1973 thru 1985 Big Twins and 1979 to present Sportster.

301750 Chrome Torx bolt kit

TRANSMISSION SPROCKET NUTS

Steel nuts to hold belt pulley or chain sprocket on the transmission main drive gear.

Fits all Big Twins 1936-1986 and 1991 Sportster (OEM 35211-36)

346009 Genuine Zodiac

231495 Made by Bender USA

Fits 1992 to present Sportster and 1991 thru 2006 Big Twin, except 2006 Dyna (OEM 35211-91)

231055 Made by Bender USA

346010 Genuine Zodiac

Fits 1971 thru mid 1984 Sportster (OEM 35047-71A)

231845 Made by Bender USA

Fits late 1984 thru 1990 Sportster (OEM 7855W)

781115 V-Twin Mfg.

JAMES TRANSMISSION SUPER NUT KIT

A very complete kit containing a sprocket nut with incorporated seal, main drive gear key, lock plates for the main drive gear and transmission sprocket, and main drive gear oil seals. Cures transmission oil leakage caused by main drive gear bushing wear. Fits all 1936 thru 1986 4-speed Big Twin models with closed or open primary, except 1965 thru 1969 with the OEM inner primary cover. Replacement seal also available.

760650 Transmission Super Nut kit, James Gaskets

760657 Replacement seal, dealer 5-pack

DRIVE PULLEY INSTALLATION KIT

Every builder or mechanic knows how long it takes to select the small parts needed. This kit includes everything for mounting the drive pulley. Kit contains the following parts: Mainshaft bearing seal (OEM 11165), sprocket nut (OEM 35211-91), 2 socket head screws (OEM 3594) and the lock plate (OEM 40251-92). Fits 1993 to present Sportster, 1991 thru 2006 Big Twin and Twin Cam models, except 2006 Dyna.

191384 Drive pulley installation kit

Fits Sportster and K models 1952 thru early 1979

191260 21 Tooth (OEM 35205-52A)

191261 22 Tooth (OEM 35205-52R)

191262 23 Tooth

Fits Sportster late 1979 thru early 1984

191341 21 Tooth (OEM 35205-79A)

191342 22 Tooth

191343 23 Tooth

CHROME SPROCKET BOLT COVER KIT

Chrome round sprocket bolt covers with domed heads. Feature internal spring clips for ease of installation and removal. Covers have a 1 3/32" (27.8mm) outer diameter. Fit 1993 thru 2017 Softail, 1999 to present Touring, 2004 to present Sportster as well as most other 7/16" applications with 5/8" hex heads. Sold in sets of 5.

302229 Chrome rear sprocket bolt cover kit (OEM 43876-04)

DRIVE PULLEY NUT AND LOCK PLATE FOR 6-SPEED MODELS

Drive pulley nut and lock plate for 2006 thru 2017 Dyna and 2007 to present Softail, Touring & Trike models with Twin Cam or Milwaukee Eight engine. Sold each.

237000 Drive pulley nut (OEM 35241-06)

237022 Lock plate (OEM 35242-06)

Fits Sportster late 1984 thru 1990

191354 21 Tooth (OEM 35208-84T)

191355 22 Tooth

191356 23 Tooth

MAIN SHAFT SPROCKET SPACER

Used to get proper clearance between transmission sprocket and transmission case on 1980 thru 1986 Big Twin 4 Speed models, 5 pack (OEM 35079-80).

231768 Main shaft sprocket spacer

Fits 5 Speed Sportster models 1991 to present. Can also be used in combination with our 1986 up rear sprocket to convert 5 Speed belt-drive models to chain drive. Note: Must be used with spacer ZPN720155 and oil seal ZPN022468 on 1994 thru 2005 models. Must be spaced-out on 2006 and later models.

191365 21 Tooth (OEM 37709-89)
191366 22 Tooth
191367 23 Tooth

Fits Big Twin models 1936 thru 1979

191305 23 Tooth
191306 24 Tooth

OFF-SET SPROCKETS FOR SPORTSTER
 These off-set sprockets increase your gearing options and provide more tire to chain clearance than the stock sprocket. Available for all Sportster models 1984 to present including the late 4 and 5 Speed Evolution models. Must be used with rear sprocket spacer to bring sprockets in line, 3/16" (5mm) off-set.

Note: Must be used with spacer ZPN720155 and oil seal ZPN022468 on 1994 thru 2005 models. Must be spaced-out on 2006 and later models.
234191 19 Tooth fits 4 Speed models
234190 20 Tooth fits 4 Speed models
234193 19 Tooth fits 5 Speed models
234192 20 Tooth fits 5 Speed models
234196 5mm Thick rear sprocket spacer, 2" (50.8mm) inner diameter

OFF-SET SPROCKET KIT FOR SOFTAIL AND FXR MODELS

A unique off-set 24 tooth transmission sprocket, which permits the installation of wider than stock rear tires or final drive ratio changes by converting the final drive from belt to chain on Softail or FXR models. The special sprocket and spacer moves the rear drive chain as far away from the tire as possible, and permits installation of 150 series tires. The kit fits 1986 thru 2006 Softail models when used in combination with 1973 up 4 Speed rear sprockets.

Must be used in conjunction with ZPN720155 spacer and ZPN022468 main drive gear seal on 1994 thru 2006 Softails. Fits 1986 thru 1994 FXR models when used with 1982 thru 1985 FXR rear sprockets. The installation of this sprocket in combination with a 51 tooth rear sprocket will change the final drive ratio from 2.1875 to 2.125. The combination with a 48 tooth rear sprocket gives an increase to 2.000, which is ideal for stroker motors, 7/32 (5.6mm) off-set.

191359 24 Tooth off-set sprocket

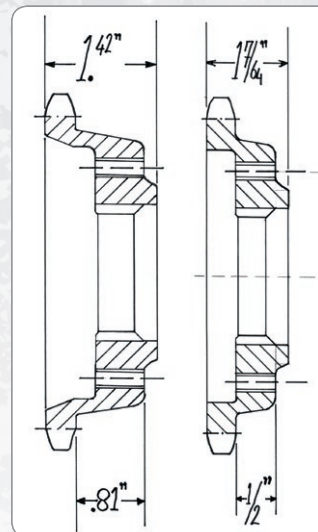

TRANSMISSION SPROCKETS FOR 45CI MODELS

236930 17 tooth, fits 1941 thru 1973 45CI Solo and Servicar (OEM 35204-41)
236931 16 tooth, fits 1933 thru 1940 Solo, 1932 thru 1936 RL models and early WL (OEM 35204-33)

OFF-SET TRANSMISSION CHAIN SPROCKETS 5 SPEED BIG TWIN & SPORTSTER

These off-set sprockets are easy solution when you want to install a slightly wider tire without offsetting the primary or transmission. Fits 1991 to present Sportster and 1986 thru 2006 5 speed Big Twin (except 2006 Dyna). These off-set transmission sprockets are available in 0.5" (12.7mm) off-set and .810" (21mm) off-set and in 21, 22, 23 or 24 tooth. The .810" off-set sprocket allows fitting of an O-ring chain as much outward as possible with the outer primary cover still in the original position.

500" Off-set	810" Off-set	
191331	-	21 tooth
191332	191335	22 tooth
191333	191336	23 tooth
191334	191337	24 tooth

OFF-SET SPROCKET AND SPACER KIT
 These sprocket and spacer kits are the solution for problems posed by the mounting of wider rear tires or wheels. Kits include a special off-set sprocket, a precisely machined rear sprocket spacer plate and five extra long rear sprocket mounting bolts with "Nyloc" nuts. Fits 4 Speed Big Twin models, 3/16" (5mm) off-set.

Note: 1979 Thru 1985 FX models will require substantial modifications, including the change over to Prestolite starter.
191303 With 22 tooth sprocket
191357 With 23 tooth sprocket
191358 With 24 tooth sprocket

OFF-SET SPROCKET KIT FOR 1984 THRU 1990 SPORTSTER MODELS

This off-set sprocket kit permits you to install a 150 series tire on your Sportster. The special sprocket and spacer moves the drive train as far away from the tire as possible. Available with 21 tooth as well as a 22 tooth sprocket. Fits 1984 thru 1990 4 speed Sportster models, 3/16" (5mm) off-set.

191371 21 Tooth
191368 22 Tooth

PULLEY AND SPROCKET SPACER

This billet aluminum spacer allows you to install rear pulleys and chain sprockets with a 2 1/2" (63.5mm) inner diameter on 1984 thru 1999 style rear hubs with a 2" (50.8mm) register. Note that this will offset the pulley or sprocket with .236" (6mm).

201584	49 Tooth (OEM 41492-90T)

SPROCKET AND DISC SPACERS

Used to line up sprocket to chain or belt as well as brake disc to caliper. Fits between sprocket or disc and hub. Available in 25mm, 5mm and 1.5mm.

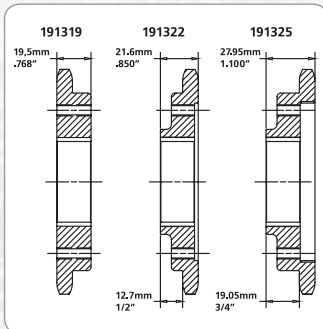

234196 5mm Thick spacer, 2" (50.8mm) inner diameter, pre-drilled for 7/16" screws

144105 1.5mm Thick spacer, 2" (50.8mm) inner diameter, pre-drilled for 3/8" screws

233110 25, 4mm thick disc spacer, 2" (50.8mm) inner diameter, pre-drilled for 5/16" screws, polished

733110 26mm thick disc spacer, 2.22" (56.4mm) inner diameter, pre-drilled for 5/16" screws, polished

733118 26mm thick disc spacer with installed ABS bearing, 2.22" (56.4mm) inner diameter, pre-drilled for 5/16" screws, polished

GENUINE ZODIAC CHAIN SPROCKETS FOR 6-SPEED TWIN CAM AND MILWAUKEE EIGHT

These chain sprockets allow you to convert 2006-2017 Dyna, 2007 to present Softail and 2007 to present Touring from belt drive to chain drive using a 530 series chain. Sprockets with no offset or 1/2" (12.7mm) offset can be used in the standard set-up. Sprockets with 3/4" (19.05mm) offset require modification of the primary and final drive line and may need additional clearance on the outer primary case depending on the chain side plate thickness.

No offset

191324	25 teeth
191325	24 teeth

CHROME PLATED SOLID REAR SPROCKETS

Our best selling sprockets in a new look, the chrome-plated solid version. These sprockets feature the rugged durability that Zodiac sprockets are known for.

For 4 Speed Big Twin models from 1973 thru 1985 and Sportster models from 1979 thru 1981 (Stock, 6mm off-set)

201554	48 Tooth
201555	49 Tooth
201545	51 Tooth (OEM 41470-73)

For all FXR models (except FXRT, FXRP) with Rear Chain drive from 1982 thru 1985 (Stock, 12mm off-set)

201556	48 Tooth
--------	----------

For all Sportster models from 1986 thru 1992 (Stock, no off-set)

201558	48 Tooth (OEM 41470-86T)
--------	--------------------------

"SWIRLED" REAR SPROCKETS WITH CHROME FINISH

We have taken our best selling sprockets and given them a totally new look by replacing the lightening holes with swirled cutouts. These Swirled sprockets are a good match with many billet aluminum wheels. They have a perfect deep blue chrome finish and look even better in combination with our Revolution stainless steel disc brake rotors. They're light, strong and beautiful.

Fits 4 Speed Big Twin models from 1973 thru 1985 and Sportster models from 1979 thru 1981 (stock 6mm off-set)

201577	47 Tooth
201575	49 Tooth
201576	51 Tooth (OEM 41470-73)

Fits 1982 thru 1985 FXR models (except FXRT and FXRP) with rear chain drive (stock 12mm off-set)

201570	46 Tooth
201571	47 Tooth
201572	48 Tooth (OEM 40954-81)

201579	48 Tooth (OEM 41470-82T)
201580	49 Tooth

Fits Sportster models from 1986 thru 1992 (flat sprocket)

201582	47 Tooth (OEM 41493-90T)
201583	48 Tooth (OEM 41470-86T)
201584	49 Tooth (OEM 41492-90T)

CHROME PLATED REAR SPROCKET WITH OVAL CUTOUTS

Beautiful chrome plated rear sprockets with a oval cut-out hole pattern to match the front brake rotors on all models from 1984 thru 1991.

For 4 Speed Big Twin models from 1973 thru 1985 and Sportster models from 1979 thru 1981 (Stock, 6mm off-set)

201559 48 Tooth
201560 49 Tooth
201561 51 Tooth (OEM 41470-73)

For all FXR models (except FXRT, FXRP) with Rear Chain drive from 1982 thru 1985 (Stock, 12mm off-set)

201562 48 Tooth

For all Sportster models from 1982 thru 1985 (Stock, 2mm off-set)

201563 48 Tooth (OEM 41470-82T)

For all Sportster models from 1986 thru 1992 (Stock, no off-set)

201564 48 Tooth (OEM 41470-86T)

REAR SPROCKETS FOR DRUM BRAKE MODELS

Rear drum brakes sprockets. Each sprocket includes necessary rivets.

236932 Fits 1935-1952 45CI Solo, includes brake shell splash ring (OEM 41474-35)

201411 Fits Big Twin 1930-1957 and Sportster 1954-1978 (OEM 41470-30)

782727 Fits Big Twin 1958-1961 (OEM 41470-58)

201412 Fits FL/FLH 1962-1966 (OEM 41470-62)

201413 Fits FL/FLH and FX 1967-1972 (OEM 41470-67)

012372 Replacement rivets 20 pack (OEM 8532)

REAR WHEEL SPROCKETS FOR CHAIN CONVERSION

Converting from belt to chain drive has a number of advantages. It can hold more horsepower, it makes it easier to change your final drive ratio, and it provides more space to install wider rear tires. These rear sprockets for 530 series chain have 2.22" (56.4mm) inner diameter as for 2000 to present rear hubs and 7/16" bolt holes. Can also be used on 1984 thru 1999 style hubs with 2" register when installed with the ZPN760514 sprocket adapter spacer. Note that this spacer will give an extra 6mm offset.

Optional adapter spacer

752256 For use on 1984-1999 style hubs with 2" inner diameter, give 1.4mm offset

Chrome	Black	
201650	201660	46 Tooth, no offset

201458 Chrome, fits Big Twins 1967-1972 (OEM 41400-67)

630SHB TOP FUEL DRAG RACE CHAIN

Those who are serious into drag racing know that a chain for a street bike can't cope with the torque of a drag racer. This 630SHB drag race chain is exactly the same as Ton Pels uses on his record breaking Godfather VI drag racer. Chain has a minimum tensile strength of 15,800 lbs. and has a horsepower rating of 500+. The pins are not shouldered, but have an over-all diameter of .295", and master plates measure .157". The pin groove is deeper and has a better quality clip to retain the master link plate.

741161 630SHB Top Fuel chain 156 links
741259 Clip style link

630SHB-Z DOUBLE PLATE TOP FUEL HARLEY DRAG RACE CHAIN

This 630SHB-Z drag race chain is the strongest drive chain available today. Chain comes with double plates on each side providing extra strength to withstand the most brutal horsepower imaginable. This chain has an unprecedented tensile strength of 31,000 lbs. and is developed Top Fuel Harley's and other V-Twin's that have a horsepower rating of 800+. The pin groove is deeper and has a better quality clip to retain the master link plate.

TSUBAKI

TSUBAKI CHAIN WEAR MEASURE TOOL

Eliminate any guess-work with this handy chain roller wear measuring tool. Simply put the wrench-side on a chain roller and use the measuring gauge to determine if the chain needs to be replaced. Measure at several points of the chain since these tend to wear unevenly. Replacing the chain in time will often save you from replacing the sprockets too.

TSUBAKI MOTORCYCLE CHAIN FOR HARLEY-DAVIDSON

Advanced technology motorcycle chain from the world's largest chain manufacturer. Applying knowledge gained from racing, Tsubaki has designed and manufactured a superior chain to go the distance. Tsubaki chains have been engineered to exacting standards to guarantee long life and smooth operation for any ride or distance.

Tight precision assembly withstands high impact and resists kinking. The chain has perfectly cylindrical bushings and is pre-stressed and pre-stretched for decreased initial elongation and increased wear life while the quad-staked riveting of the pin heads ensure maximum resistance to push-out force. Tsubaki chains are competitively priced and are backed by full warranty.

530 High Performance roller chain
Available as an economical high quality QRS series solid roller chain as well as an extra Heavy Duty "Delta" self-lubricating version, which has specially formulated lubricant impregnated into the bushings. On both qualities all critical points are heat treated and shot peened for greater durability. Chains are pre-stretched at the factory to reduce initial stretch. The Heavy Duty "Delta" version comes in a true custom style nickel plated finish.

RSD FRONT PULLEY COVER

Billet aluminum cover with mesh for use when stock pulley cover is removed. Covers stock Sportster front belt pulley on 2004 to present models. Comes complete with hardware and pairs RSD Tracker Front Pulley Guard.

- 756450** Contrast Cut Black
- 756451** Black OPS

OFFSET BELT PULLEY FOR SPORTSTER

These front final drive pulleys are precision made from solid billet aluminum with a hard-anodized gold colored finish and have an offset for converting to wider than stock wheels. They come in 29 tooth only and are suitable for both 1" and 1 1/8" wide belts.

- 193211** 3/4" (19.05mm) offset on 1991 thru 2003 Sportster or 23/64" (9.13mm) offset on 2004 to present Sportster
- 193212** 1" offset (25.4mm) offset on 1991 thru 2003 Sportster or 41/64" (16.27mm) offset on 2004 to present Sportster

2 YEARS WARRANTY

FRONT PULLEY GUARD AND SPROCKET COVER FOR SPORTSTER

Billet aluminum front pulley cover with a stainless steel wire mesh center and heavy duty steel front pulley guard for 2004 to present XL Sportster models. Can be installed individually or as a set.

STOCK REPLACEMENT TRANSMISSION BELT PULLEYS

Direct bolt-on replacement front final belt drive pulleys, made exactly to OEM specifications.

Fits Sportster 1991-2003

- 700491** Front, 27 tooth
(OEM 40285-91B)
753528 Front, 28 tooth
753529 Front, 29 tooth (OEM 40202-91)

Fits Sportster 2004 to present and gives 10mm offset in 1991-2003 models

- 740562** Front, 28 tooth, XL883 and XR1200 (OEM 40379-04)
740563 Front, 29 tooth, XL1200 (US domestic) (OEM 40409-04)
740564 Front, 30 tooth, XL1200 (HDI International export) (OEM 40380-04)

Fits Big Twin thru 1999

- 193011** Front, 32 tooth, fits 1985-1993 (OEM 40210-85C)
193009 Front, 32 tooth, fits 1994-2006, except 2006 Dyna (OEM 40250-94)

NEW

MILWAUKEE EIGHT FINAL BELT DRIVE FRONT PULLEYS

Stock replacement final drive front pulleys. Available in stock size 32 tooth, the smaller 31 tooth pulley increases acceleration, while the 34 tooth gear gives a higher top speed at less RPM. Installation of non-stock size pulleys usually requires the use of a longer or shorter final drive belt. Fits 2017 to present Milwaukee Eight Touring & Trike and 2018 to present Milwaukee Eight Softail.

- 193002** 31 Tooth
193001 Stock size 32 tooth (OEM 3500152)
193000 34 Tooth

FINAL BELT DRIVE PULLEYS

Precision machined final belt drivetransmission pulleys. Made out of heat-treated quality steel alloy. Available in 29, 30, 32 or 34 teeth to enable you to install the final drive ratio of your choice. Stock equipment on all 5 speed Big Twin models is a 32 tooth pulley. Smaller transmission pulleys let your bike pull harder but will give a lower top speed, a larger transmission pulley is used for big displacement high torque and powerful engines.

Note: Although 2000 and later models use the narrow (1 1/8" instead of 1 1/2") final belt and rear pulley, the front pulley width has remained unchanged.

Fits 1985 thru 1993 models

- 193012** 29 Tooth
193010 30 Tooth
193011 Front, 32 tooth (OEM 40210-85C)
193013 34 Tooth

Fits 1994 thru 2006 models, except 2006 Dyna

- 193040** 29 Tooth
193009 Front, 32 tooth (OEM 40250-94)

BELT PULLEYS FOR DYNA, SOFTAIL AND TOURING

These belt pulleys are stock replacement for the late Twin Cam models with the OEM 6-speed transmission, such as 2006 thru 2017 Dyna, 2007 thru 2017 Softail and 2007 thru 2016 Touring.

- 193205** Drive pulley, 32 teeth (OEM 40659-06)
396057 1/4" (6mm) offset drive pulley, 32 teeth (as supplied in 2014-up offset kit ZPN 701956)

OFF-SET FINAL DRIVE PULLEYS

Zodiac offers off-set transmission pulleys in 1/2", 9/16", 3/4" and 1" off-set to allow the Custom Bike Builder to install wide tire conversions without offsetting the transmission. Pulleys feature precision hobbled teeth and are machined to close tolerances for long service. Available in 29, 32 or 34 tooth to enable you to install the final drive ratio of your choice. Stock equipment on all 5-speed Big Twin models is the 32 tooth pulley. A larger pulley will increase top speed but reduce acceleration and is usually used on large displacement High Torque engines.

Note: Although 2000 and later models use the narrow (1 1/8" instead of 1 1/2") final belt and rear pulley, the front pulley width has remained unchanged.

29 Tooth belt pulley, fits 1985 thru 1993 models

- 193066** 3/4" Off-set
193065 1" Off-set

32 Tooth belt pulley, fits 1985 thru 1993 models

- 193058** 1/2" Off-set
193056 3/4" Off-set
193055 1" Off-set

ANDREWS' ANDREWS BIG TWIN 5 SPEED FINAL BELT DRIVE SPROCKETS

Andrews "final belt drive" transmission belt pulleys match the 1994 to present design with a 50% longer internal spline engagement length than the earlier design. For 1985 thru 1993 models Andrews pulleys are supplied with a spacer for correct fit. Kits for 1985 thru 1993 models are supplied with seals, spacer and new style lock ring included. Stock equipment on all 5 Speed Big Twins is a 32 tooth pulley. The 31 tooth pulley will allow quicker acceleration (3% more RPM), the 30 tooth pulley allows even quicker acceleration (6% more RPM), the 29 tooth pulley will allow the quickest acceleration (9% more RPM), while the 34 tooth pulley will reduce engine RPM with 6% for smoother cruising.

Note: Although 2000 and later models use a narrower (1 1/8" instead of 1 1/2") final belt and rear pulley, the front pulley width has remained unchanged and will also fit Twin Cam models.

Fits 1985 thru 1993 Big Twin models

ANDREWS

ANDREWS BELT PULLEYS FOR 6-SPEED TWIN CAMS

These American made belt pulleys fit Twin Cam models with the OEM 6-speed transmission, such as 2006 thru 2017 Dyna, 2007 thru 2017 Softail and 2007 thru 2016 Touring. The pulley with 30 teeth increases acceleration, the 34 teeth pulley will reduce engine speed with 180 RPM at 60 MPH (96 km/h). 34 Tooth pulley does not fit 2014 thru 2016 Touring.

233002 34 teeth

234571 32 teeth (stock)
(OEM 40659-06)

234570 31 teeth

233003 30 teeth

ANDREWS

ANDREWS MILWAUKEE EIGHT BELT PULLEYS

Machined from heat-treated, gear-quality steel in the USA by Andrews. Available in stock size 32 tooth, the smaller 31 tooth pulley increases acceleration, while the 34 tooth gear gives a higher top speed at less RPM. Installation of non-stock size pulleys usually requires the use of a longer or shorter final drive belt. Fits 2017 to present Milwaukee Eight Touring & Trike and 2018 to present Milwaukee Eight Softail.

745341 Stock size 32 tooth
(OEM 35000152)

745340 34 Tooth

CUSTOM BELT PULLEY FOR TOURING MODELS

This 65 teeth chrome rear wheel pulley is designed for use on 2000 thru 2006 Touring models in conjunction with a 20mm belt, which are stock on various 2006 thru 2017 Softail models. The use of this narrow belt allows you to install an up to 40mm wider rear tire, without going through the hassle of offsetting the front pulley and/or primary. An advantage from the use of a smaller diameter rear pulley is that it reduces engine speed with over 7%, reducing noise, vibrations and fuel consumption. Pulley also fits 2000 thru 2017 Softail and Dyna when spaced out properly. Pulley and belt must be ordered separately.

191338 Chrome 20mm wide rear belt pulley, 65 tooth

EXTRA CLEARANCE PULLEYS AND BELT KITS

These kits are designed to provide extra belt to lower swingarm tube clearance. This extra clearance may be needed on some Softail models when they are converted from the stock swing-arm to an extra wide swingarm and the belt is marking the lower swingarm tube. Available for 1985 thru 1993, 1993 thru 1999 and all 2000 thru 2005 Softail as well as 2006 FLST, FLSTC, FLSTF, FLSTN, FLSTSC and FXSTD. All kits are available with stock, 3/4" (19mm) and 1" (25mm) off-set in the front pulley. Kit has 29 tooth front pulley, 65 tooth rear pulley. Rear pulley is designed for use with 1 1/8" belt. Stock rear ratio is 2.19, the 29 tooth with 65 tooth pulley will change this ratio by only 2 percent to a ratio of 2.24.

Kits with no off-set in the front pulley

700964 Fits 1985 thru 1993

700965 Fits 1994 thru 1999

700966 Fits all 2000 thru 2005 Softail as well as 2006 FLST, FLSTC, FLSTF, FLSTN, FLSTSC and FXSTD.

Kits with 3/4" (19mm) off-set in the front pulley

700967 Fits 1985 thru 1993

700968 Fits 1994 thru 1999

700969 Fits all 2000 thru 2005 Softail as well as 2006 FLST, FLSTC, FLSTF, FLSTN, FLSTSC and FXSTD

Kits with 1" (25mm) off-set in the front pulley

700974 Fits 1985 thru 1993

700975 Fits 1994 thru 1999

700976 Fits all 2000 thru 2005 Softail as well as 2006 FLST, FLSTC, FLSTF, FLSTN, FLSTSC and FXSTD

RICK'S

OFF-SET DRIVE PULLEYS FOR V-ROD

These Rick's off-set drive pulleys are for use on V-Rod models when converting to wider than stock wheels. Must be used in conjunction with matching off-set parts for the wheel and rear pulley to keep the drive belt in line. Available in 29 and 30 tooth, with an off-set of 8, 28, 33, 38, 42 or 55mm.

Fits VRSCA V-Rod models 2002 thru 2003

741218 28mm Off-set (30 Tooth)

741223 38mm Off-set (30 Tooth)

741224 42mm Off-set (30 Tooth)

Fits V-Rod models 2004 thru 2017

756319 33mm Off-set (30 Tooth)

756317 38mm Off-set (29 Tooth)

756323 42mm Off-set (30 Tooth)

756324 55mm Off-set (30 Tooth)

NARROW 1 1/8" ALUMINUM REAR BELT PULLEYS FOR BIG TWINS

Chrome plated rear pulleys for 1980 to present models. These pulleys are designed for use with the late style "Narrow" 1 1/8" wide rear belt. These C.N.C machined pulleys have a five star pattern and highly polished finish.

1 1/8" Wide rear belt pulleys with 2" inner diameter, fit 1984 thru 1999 models

191394 65 Tooth

191396 70 Tooth

1 1/8" Wide rear belt pulleys with 2 7/32" inner diameter. Fits Dyna 2000 thru 2005, FLH and FLT series models 2004 thru 2006, all Softail models 2000 thru 2005, as well as FLST, FLSTC, FLSTF, FLSTN FLSTSC and FXSTD Softail models 2006

191395 65 Tooth

191389 70 Tooth

PM REAR BELT PULLEY FOR 2009 TO PRESENT TOURING

Made from billet aluminum and available in Contrast Cut black to replace that dull looking Original Equipment part on 2009 to present FLH and FLT series Touring models without loosing the rubber cushion in your driveline. Has the same 68 teeth as stock pulleys and goes with your stock belt. Can be used for V-Rod models to change the final drive ratio as well. Pulleys are also available with polished, chrome or Platinum Cut black finish upon Special Order.

752147 Contrast Cut rear pulley for 2009 to present Touring

IMPORTANT INFORMATION

Due to the wide application and fitting variations of primary and final belts, Zodiac can not accept any claim for warranty as, no matter how long they have been used and no matter what the defect is, belts are not covered by any manufacturer warranty. To avoid any complications we suggest that belts should be installed by a qualified mechanic.

DESIGNER REAR PULLEY FOR 2000 TO PRESENT MODELS

These "Designer" pulleys bring a more classy appearance to your bike. They are machined from a block of solid aluminum and then perfectly polished or chrome plated. The 8 spokes make up a perfect composition between themselves and really highlight this section of your motorcycle. The pulley has 70 tooth and is 1 1/8" wide. Fits Dyna 2000 thru 2005, FLH and FLT series models 2004 thru 2006, all Softail models 2000 thru 2005, as well as FLST, FLSTC, FLSTF, FLSTN FLSTSC and FXSTD Softail models 2006.

Fits Dyna 2000 thru 2005, FLH and FLT series models 2004 thru 2006, all Softail models 2000 thru 2005, as well as FLST, FLSTC, FLSTF, FLSTN FLSTSC and FXSTD Softail models 2006

191397 Chrome 70 tooth 8-spoke, 1 1/8" wide

191398 Polished 70 tooth 8-spoke, 1 1/8" wide

Fits 2007 to present Softail, has stock .241" (6.1mm) offset

191312 Chrome 66 tooth 8-spoke, 1" wide (OEM 40325-07, 37726-08 & 40412-08)

191311 Chrome 66 tooth 8-spoke, 20mm wide (OEM 37710-07, 37711-07 & 40690-07)

NEW

CUSH DRIVE DAMPENER RUBBER FOR TOURING

Stock replacement rubber dampener for the rear wheel pulley on all 2009 to present Touring models.

782685 Isolator rubber (OEM 40278-09)

STOCK REPLACEMENT REAR WHEEL BELT PULLEYS

Direct bolt-on replacement final belt drive pulleys, made exactly to OEM specifications.

Fits Sportster 1991-2003

700492 Rear, 61 tooth (OEM 40213-91)

Fits Sportster 2004 to present and gives 10mm offset in 1991-2003 models

RICK'S HIGH-END BILLET ALUMINUM FINAL DRIVE PULLEYS

CNC machined from billet aluminum with a polished finish. Rick's pulley designs are made to match with Rick's wheels. Available for use with 20mm, 28mm, 1", 1 1/8" belts for Big Twin models as well as 1 3/8" and 1" wide belt for use on V-Rod models. Pulleys for V-Rod models use the stock drive cushions in the rear wheel.

Some designs of these pulleys are also available on Special Order for Sportster and VRSCX models. Please check with the Zodiac dealer for price and delivery.

Application guide:

For all Dyna and Softail models thru 2005 with 1 1/8" belt, use **type A**

For use on models with a Right Side Drive transmission, use **type B**

For 2007 to present Softail FXTSB, FXSTC and FLSTF models, factory equipped with 200-series rear tire, use **type C**

For 2007 FXD Dyna models and 2007 to present Softail, except those with 200-series rear tire, use **type D**

For 2006 Softail models factory equipped with 200-series rear tire, use **type E**

For 2006 FXD Dyna models and 2006 Softail models, except those with 200-series rear tire, use **type F**

For 2002-2017 V-Rod models with 1 3/8" Belt, use **type G**

For 2007-2017 V-Rod models with 28mm Belt, use **type H**

753657	168 Tooth	(OEM 40000016)

IMPORTANT INFORMATION

Due to the wide application and fitting variations of primary and final belts, Zodiac can not accept any claim for warranty as, no matter how long they have been used and no matter what the defect is, belts are not covered by any manufacturer warranty. To avoid any complications we suggest that belts should be installed by a qualified mechanic.

STOCK PULLEY SIZES AND BELT LENGTHS

Table gives stock pulley sizes and belt length for European models. Check OEM parts catalog for non-European models.

MIDWEST ACORN NUT CO.
THE ULTIMATE QUALITY
FOR YOUR MOTORCYCLE

CHROME PLATED SPROCKET & PULLEY BOLTS & SCREWS

High quality chrome plated hardware kits to mount the chain sprocket or belt pulley to the rear wheel hub. The kits for steel hub spoke wheel applications include chrome plated Nyloc nuts.

- 235063** Fits 1973 thru 1985 Softails, Dyna's, FLT's and FXR's with spoke wheels, Allen head (7/16" UNC x 1 1/2")
- 235062** Fits 1973 thru 1985 Softails, Dyna's, FLT's and FXR's with cast wheels, Allen head (7/16" UNC x 1 1/4")
- 238715** Fits 1973 thru 1985 Big Twins with cast wheels, Hex head (7/16" UNC x 1 1/2")
- 238716** Fits late 1986 thru 1994 Big Twins and 1980 thru 1984 FLT's with cast wheels, Allen head (7/16" UNC" x 1 3/4")
- 238717** Fits late 1986 thru 1994 Big Twins and 1980 thru 1984 FLT's with spoke wheels, Hex head (7/16" UNC x 1 3/4")
- 701202** Fits Dyna Twin Cam models 1999 with cast wheels, Allen Head (7/16" UNC x 1 5/8")
- 701203** Fits FLH & FLT Touring Models 1999 thru 2001 with cast wheels, Allen heads (7/16" UNC x 2 1/2")
- 723411** Fits Dyna Twin Cam models 1999 and FLH & FLT Touring models 1999 thru 2008, Hex heads (7/16" UNC x 1 3/4")
- 723412** Pulley kit, fits Softail 2000 thru 2017, Hex heads (7/16" UNC x 2 1/4")
- 235073** Fits most Sportster models from 1979 to present with cast wheels, Allen heads (7/16" UNC x 1 1/2")

RUBBER GROMMET

These rubber grommets are used to plug off the filler hole on 1980 thru 1984 FLT models with oil bath final drive, as well as on the horn bumper bracket on 1973 thru 1985 Sportster. Made by James Gaskets and sold to dealers in packs of 5.

- 742406** Rubber grommet, 5-pack (OEM 11428)

CHAIN GUARDS

Zodiac offers an extensive line of show-chromed chain guards for almost any year and model Harley-Davidson. Guards are precisely engineered for a perfect fit and easy installation. Reinforced at the right places and with a superb chrome finish.

- 105028** Fits all models Sportsters 1983 thru 1987 (not 1987 Hugger) (OEM 60375-83 & 91777-85)

- 105039** Fits all Evolution Sportsters 1988-1990 and 1987 Hugger (OEM 60365-87 & 60405-87)

- 105004** Fits XLH 1967-1978 and XLCH 1970 thru 1978 (OEM 60308-67)

- 105003** Fits all FL/FX 4 Speed models with swing-arm, stock replacement on 1958 thru 1972 models (OEM 60302-58)

- 105008** Fits FL-FX-FXWG 4 Speed models 1973 thru 1985, except belt-drive models (OEM 60302-73)

- 105114** Louvered chain guard. Fits all 4 Speed Big Twin FL/FX models with chain drive from 1973 thru 1985 (OEM 60302-73)

- 105037** Fits FXR 5 Speed models (except FXRT) 1982 thru 1984, and FXR 1986 (OEM 60640-86 & 60607-81A)

- 105038** Fits Softail models 1984 thru 1985 (OEM 60639-84B)

CHROME UPPER BELT GUARD

Chrome upper belt guard for 1987 thru 1992 FXR models (except FXRT).

- 105116** Upper belt cover (OEM 60295-87 and 91739-87)

HARDTAIL BIG TWIN CHAIN GUARD

Fits 1936 thru 1957 Big Twin and most aftermarket hardtail frames

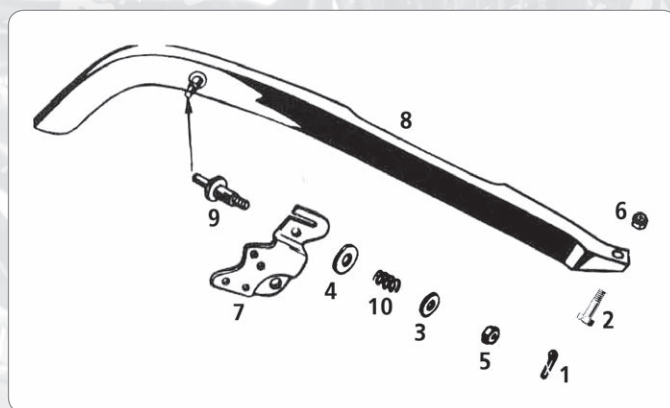

- 105002** Chain guard, Genuine Zodiac (OEM 3817-36, 60302-36)
- 780112** Stud & spring kit, Samwel (OEM 3828-26, 60347-26)

UPPER BELT GUARD FOR SPORTSTER

These chrome or black upper belt guards fit all Sportster models 1991 thru 1999 (OEM 60404-91).

- 105124** Chrome
- 105133** Black
- 105135** Chrome with holes
- 105134** Black with holes

REAR CHAIN GUARD FOR 45CI SOLO MODELS

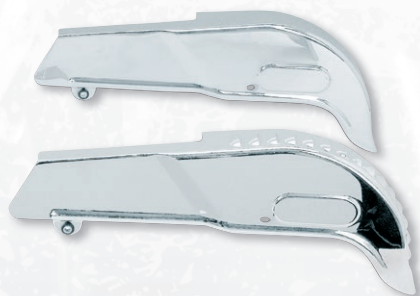

Fits all 1936 thru 1952 models.

This Zodiac made belt guard is made of deeply chrome plated steel, and is designed for simple bolt-on installation. Fits 1986 thru 1992 Softail models (OEM 60366-89 & 60362-86).

Note: Lower belt guard ZPN105105 may not be used in conjunction with 61 tooth Original Equipment rear pulleys.

105105 Lower belt guard

BELT GUARDS FOR DYNA MODELS 2000 THRU 2005

These belt guards fit all Dyna models 2000 thru 2005 (OEM 60293-00).

105051 Chrome

105146 Black

1936-1957 STYLE BIG TWIN CHAIN GUARDS

Perfect replicas from the OEM chain guards as found on 1936 thru 1940 and 1941 thru 1957 Big Twins. Late style guards feature 3 rivets for the front bracket. OEM part numbers for early and late style are the same as back in those days Harley simply supplied the latest version without changing the part number.

781235 Black, 1936 thru 1940 style (OEM 60302-36)

781236 Chrome, 1936 thru 1940 style (OEM 60302-36)

781233 Black, 1941 thru 1957 style (OEM 60302-36)

781234 Chrome, 1941 thru 1957 style (OEM 60302-36)

780112 Stud & spring kit, Samwel (OEM 3828-26, 60347-26)

SPORTSTER HOLESHOT BELT GUARD

Belt guard as stock on 2016 to present XL883N Iron, 2010-2018 XL1200N Nightster and 2010-2018 XL1200X Forty-Eight but fits all XL Sportster models 2004 to present.

701812 Black belt guard 2004 to present XL Sportster (OEM 60379-09, 60379-09A, 60300196)

LOWER BELT GUARD

Chrome plated lower belt guard, fits 1985 thru 1993 FXR and FLT/FLHT/FLHS models. This guard is a perfect match with our upper belt cover (ZPN105102 & 105116) and our chrome belt sprocket inserts (ZPN301655). Can not be used in conjunction with OEM 61 Tooth rear pulley.

105100 Lower belt guard (OEM 60397-85)

UPPER BELT GUARD 2000-2003 SPORTSTER

Perfect copy of the OEM belt guard with a chrome finish.

WURTH BELT DRIVE LUBRICANT WITH TEFLON

This easy to use spray is developed for the maintenance of toothed belts and therefore the ultimate maintenance product for use on primary as well as rear belt drives. Among other special ingredients it contains Teflon, which has excellent lubrication properties for use on rubber and or kevlar drive belts. The use of this lubricant helps to extend the life of your belt. Comes in a 300 ml spray can. Sold each.

- 239318** Belt drive lubricant

Dealer Notification: Spray cans are subject to Safety Regulations and therefore can not be shipped by air (such as UPS Express Saver), they can only be shipped as road cargo (such as UPS Standard and TNT Economy Express).
