## FREEDOM PERFORMANCE EXHAUSTS NOW WITH E-APPROVAL

California based Freedom Performance is a relatively young brand on the Harley-Davidson aftermarket, but is founded by industry veteran Martin Arteaga. All complete exhaust systems come with beefy looking heat shields on the headers, offering an almost seamless fit to the muffler bodies. Headers feature, dependent on the application and configuration of the system, 3 to 5 diametrical steps to keep exhaust gas flow as high as possible. Freedom Performance exhaust systems come with a **high-quality chrome plated finish or in ceramic black**, to date the one and only ever-lasting black finish that won't chip, discolor or fade.

New in the range of Zodiac products are FREEDOM PERFORMANCE exhaust systems and slip-on mufflers with the **E-approved Thor Cat RetrofitSystem** installed. Zodiac already has an extensive range of Thor Cat E-approved Freedom Performance exhausts slip-on mufflers and complete systems for Harley-Davidson Sportster, Dyna, Softail and Touring models. Approval for Milwaukee Eight powered Tourings is in progress. E-approved systems are also available for Indian Chief, Chieftain, Classic, Dark Horse, Roadmaster, Scout, Springfield, and Vintage models.

More and more applications are added, so if you can not find the system you want, then make sure you also check them in the **daily updated Zodiac Online Catalog at <https://zodiac.nl/Freedom>**

Zodiac represents over 40 years of experience in developing, supplying and distributing the highest quality replacement parts and accessories for Harley-Davidson motorcycles.
