

BILLET CLUTCH BASKET for M8 Models

Engineered for M8 performance, the new S&S Billet Clutch Basket delivers unmatched durability, smoother actuation, and superior power handling. Precision-machined from solid billet aluminum, it incorporates patent-pending stainless steel wear-liner inserts that virtually eliminate the notching seen in OEM baskets, maintaining consistent clutch actuation over time.

Integrated carbon-steel threaded inserts ensure exceptional structural integrity, while the basket maintains full compatibility with all OEM-fit clutch packs, including Rekluse® TorqDrive® systems. Installation enhances primary sprocket and chain alignment for more efficient power transfer. Tested at the drag strip and manufactured in the USA.

Fitment:

- 2017-'26 M8 Models

Features And Benefits:

- Direct replacement for the stock clutch basket
- Designed to handle extreme abuse from high-output M8's
- Handles 200+ lb-ft of torque
- Stainless steel wear liner inserts eliminate the notching issue inherent to the stock clutch basket—providing enhanced clutch modulation and a smoother clutch feel at the lever. (Patent Pending)
- Integrated stainless steel wear liner inserts are far more durable than bare aluminum (stock) or hard anodized aluminum alternatives
- Precision CNC machined from solid billet aluminum
- Integrated carbon steel threaded inserts provide superior strength & reliability
- Compatible with all clutch packs made to fit the stock clutch basket, including Rekluse® TorqDrive® clutch packs
- Improves alignment of the primary sprockets & primary chain compared to the stock configuration
- Drag strip tested

BILLET CLUTCH BASKET

for 2007-'17 Twin Cam Models

PROVEN PERFORMANCE

Stainless steel wear liner inserts

Following the success of the S&S Billet Clutch Basket for M8 models, S&S is proud to bring the same proven strength and durability to 2007–2017 Big Twin models. Precision CNC machined from solid billet aluminum, this direct replacement clutch basket is engineered to handle over 200 lb-ft of torque and features integrated stainless steel wear liner inserts that eliminate clutch plate notching for smoother clutch engagement and longer service life. Compatible with stock replacement and performance clutch packs, including Rekluse® TorqDrive®, it delivers the reliability and performance serious Twin Cam® riders demand on the street or at the drag strip.

Fitment

- 2007-'17 H-D® Twin Cam Models*

**Will fit 06 Dyna, (excludes 2017 M8 touring models)*
